This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Purpose

This guide is designed to help acquaint you with the Oracle® Banking Cash Management Cloud Service.

It provides an overview of the system and guides you, through the various steps involved in setting up and providing the cash management services for the customers of your bank.

Audience

This guide is intended for the following User/User Roles:

Table 1 Audience

Role	Function
Back office executive	Input functions for transactions
Back office managers/officers	Authorization of functions
Product Managers	Product definition and authorization

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Related Resources

The related documents are as follows:

- *Oracle Banking Common Core User Guide*
- *Oracle Banking Security Management System User Guide*
- *Oracle Banking Getting Started User Guide*
- *Cashflow Forecasting User Guide*
- *Netting User Guide*
- *Receivables and Payables User Guide*

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Screenshot Disclaimer

Personal information used in the interface or documents are dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

The list of acronyms and abbreviations that are used in this guide are as follows:

Table 2 Acronyms and Abbreviations

Abbreviation	Description
CDC	Current Dated Cheque
CIF	Customer Information File
CMS	Cash Management System
FIFO	First In First Out
LIFO	Last In First Out
PDC	Post Dated Cheque

Basic Actions

The basic actions performed in the screens are as follows:

Table 3 Basic Actions

Actions	Description
New	Click New to add a new record. The system displays a new record to specify the required data. The fields marked as Required are mandatory. <ul style="list-style-type: none"> This button is displayed only for the records that are already created.
Save	Click Save to save the details entered or selected in the screen.
Unlock	Click Unlock to update the details of an existing record. The system displays an existing record in editable mode. <ul style="list-style-type: none"> This button is displayed only for the records that are already created.
Authorize	Click Authorize to authorize the record created. A maker of the screen is not allowed to authorize the same. Only a checker can authorize a record. <ul style="list-style-type: none"> This button is displayed only for the already created records. For more information on the process, refer Authorization Process.
Approve	Click Approve to approve the initiated record. <ul style="list-style-type: none"> This button is displayed once you click Authorize.
Reject	Click Reject to reject the initiated record. <ul style="list-style-type: none"> This button is displayed once you click Authorize.
Audit	Click Audit to view the maker details, checker details of the particular record. <ul style="list-style-type: none"> This button is displayed only for the records that are already created.
Close	Click Close to close a record. This action is available only when a record is created.
Confirm	Click Confirm to confirm the action performed.
Cancel	Click Cancel to cancel the action performed.
Compare	Click Compare to view the comparison through the field values of old record and the current record. <ul style="list-style-type: none"> This button is displayed in the widget once you click Authorize.
View	Click View to view the details in a particular modification stage. <ul style="list-style-type: none"> This button is displayed in the widget once you click Authorize.

Table 3 (Cont.) Basic Actions

Actions	Description
View Difference only	Click View Difference only to view a comparison through the field element values of old record and the current record, which has undergone changes. <ul style="list-style-type: none"> This button is displayed once you click Compare.
Expand All	Click Expand All to expand and view all the details in the sections. <ul style="list-style-type: none"> This button is displayed once you click Compare.
Collapse All	Click Collapse All to hide the details in the sections. <ul style="list-style-type: none"> This button is displayed once you click Compare.
Menu Item Search	Specify the menu name to search and select the required screens from the list. <ul style="list-style-type: none"> This option is used to search and navigate the required screens.
OK	Click OK to confirm the details in the screen.

Symbols and Icons

The list of symbols and icons available on the screens are as follows:

Overview of Collections

This topic describes the information on the overview, benefits and functionalities of Collections module.

Overview

Oracle® Banking Cash Management Cloud Service services enable a financial institution to manage the account receivables and account payables of their corporate customers. Oracle® Banking Cash Management Cloud Service provides a technology platform capable of capturing account receivables and account payables of corporates across disparate accounts and locations. It also has a comprehensive Collections feature for managing the collection of cash, and cheques, which can include local, up-country, and correspondent bank cheques. This feature aims at minimizing float time, thus enabling better management of working capital for the corporates.

Benefits

- **Cost Reduction** – The increased visibility of transactions and easy reconciliation helps corporates manage and control their cash flow and reduce costs.
- **Integrated Payables & Receivables** – The platform facilitates efficient receivables and payables management through enhanced automation and straight-through processing of key processes.
- **Early Credit** – The Arrangement Credit feature enables financial institutions to provide cheque collection credit to corporates before realization of the cheque.
- **Accurate Forecasting** – Enables financial institutions to maintain accurate cash flow forecasting of corporates, by consolidating forecast collection inputs through seamless integration with internal systems.
- **Regulatory Environment** – The platform leverages flexible configuration to launch quickly, respond to regulatory changes and expand into new geographies.

Functionality

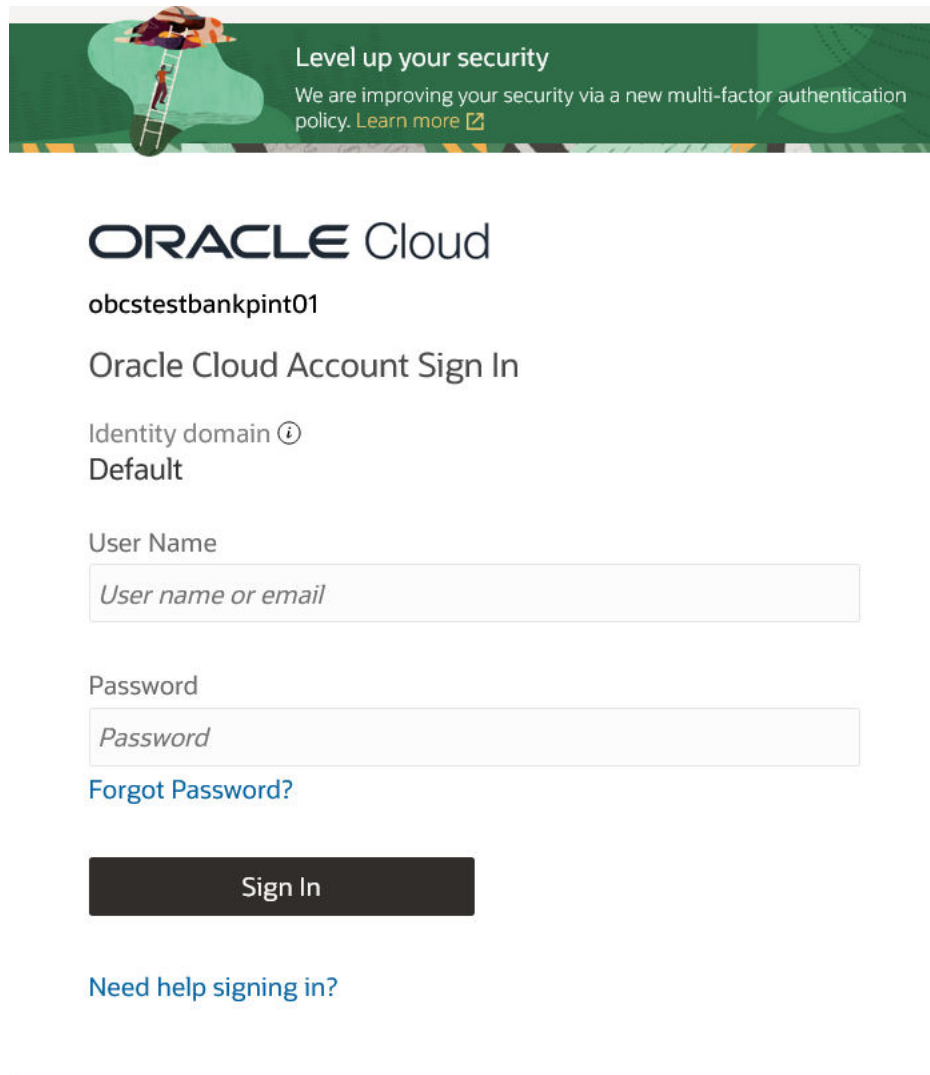

- Dashboard
- Collections
 - Paper Based Collections
 - Pricing

Home: Dashboard

Successfully signing into the application displays the Dashboard as your home screen. Dashboard displays a gist/summary that is internal to the bank. It is a collection of various portlets that are displayed based on your role and access rights. The Dashboard enables you to perform various analytical functions. You can drag and move different portlets, resize/auto adjust the size, and expand/collapse the portlets.

On starting the Oracle® Banking Cash Management Cloud Service system, the **Login** screen displays.

Figure 1-1 Login

The image shows the Oracle Cloud login page. At the top, there is a green banner with the text "Level up your security" and "We are improving your security via a new multi-factor authentication policy. [Learn more](#)". Below the banner, the Oracle Cloud logo is displayed. The text "obctestbankpint01" is shown. The main heading is "Oracle Cloud Account Sign In". Below this, there is a section for "Identity domain" with a help icon and the text "Default". The "User Name" section has a text input field with the placeholder "User name or email". The "Password" section has a text input field with the placeholder "Password". Below the password field is a link "Forgot Password?". A dark "Sign In" button is located below the password field. At the bottom, there is a link "Need help signing in?".

1. Specify **User Name** and **Password** to access the application.
2. Click **Sign In** to log into the application.
The **Dashboard** screen displays.

Figure 1-2 Dashboard

Oracle® Banking Cash Management Cloud Service Dashboard currently consists of the following mentioned portlets for Receivables management:

- Aging of Invoices:** The aging graph displays invoice aging information in the form of doughnuts. There are two views of the graph, 2nd view can be navigated by flipping the portlet, and clicking the graph on the top-right corner to change the view from doughnut (default) to bar chart. The front view of the graph displays the invoice amount volume split as per aging buckets which are configurable at the time of implementation i.e. 0-30 days; 30-60 days etc. Range criteria can be defined with a maximum of 6 ranges. On clicking any of the range buckets, the graph displays the list of corporates whose invoices are due for that aging bucket. Clicking on the '+' (expand) icon against each corporate; launches invoice details about information of that specific corporate such as supplier name, 'Invoice Due Date From', and 'Invoice Due Date To'.
- Top 5 Corporates:** This portlet displays information in the form of a jet-bar chart of the top five corporate customers for their total Receivables and Payables. The data can be viewed in a tabular format as well, by clicking the table icon at the top right corner.
- Unrealized Instrument Aging:** Unrealized Instrument Aging graph displays the doughnut chart with the number of cheques/instruments, which are unrealized for aging bucket (number of day). You can click on the bar graph icon at the top-right of the portlet to change the view from doughnut (default) to bar graph. The landing page displays the number of unrealized cheques/instruments split as per configurable aging buckets. A maximum of seven ranges can be defined.
- Instrument Status:** The Instrument Status portlet displays the status-wise total count and the total value of the instruments for the period selected between From Date and To Date (Deposit from and To Date). By default, the date period is from 'current date-1' to 'current date'. The statuses displayed in the portlet are Lodged, Hold, Return, and Realized.
- Cash Transaction Volume and Trend:** This portlet displays a bar graph depicting the amounts in branch currency that have been collected and withdrawn every month, within the specified time frame. The Cash Withdrawal and Cash Collection bars are color-coded for aiding quick visual analysis. You can alter the 'From Date' and 'To Date' by clicking the Filter icon, and selecting the required dates.

- **Netting Transaction Status:** This portlet provides an overview of all netting transactions, categorized by their current status. It shows both the total number and the total value of transactions for each status, based on the current branch date. Following are the list of netting transaction status.
 - **Awaiting Acceptance:** Awaiting Acceptance displays transactions that require user acceptance before processing. By clicking **Awaiting Acceptance** the user navigates to the **Netting Management** screen, where the default action is set to **Accept Netting Transaction**. This screen lists all transactions awaiting acceptance.
 - **Awaiting Settlement:** Awaiting Settlement displays transactions pending settlement but already accepted. Rejected transactions and delinked invoices are not included in this status. There is no hyperlink or navigation for this status.
 - **Corporate to Sub Center:** Corporate to Sub Center displays the total number and value of netting transactions where funds are to be transferred from Corporate to a Sub Center.
 - **Corporate to Global Netting Center:** Corporate to Global Netting Center displays the total number and value of transactions where funds are to be transferred from Corporate to the Global Netting Center.
 - **Sub Center to Global Netting Center:** Sub Center to Global Netting Center displays the total number and value of transactions where funds are to be transferred from a Sub Center to the Global Netting Center.
 - **Sub Center to Corporate:** Sub Center to Corporate displays the total number and value of transactions where funds are to be transferred from a Sub Center to Corporate.
 - **Global Netting Center to Sub Center:** Global Netting Center to Sub Center displays the total number and value of transactions where funds are to be transferred from the Global Netting Center to a Sub Center.
 - **Global Netting Center to Corporate:** Global Netting Center to Corporate displays the total number and value of transactions where funds are to be transferred from the Global Netting Center to Corporate.
- **Top 5 Corporate Cash Collection/Withdrawal:** This portlet displays a jet-bar chart with the top 5 corporate parties with high-value cash collection in branch currency, within the specified time frame. You can alter the 'From Date' and 'To Date' by clicking the Filter icon, and selecting the required dates. Flip the portlet using the arrow on the side to view the top 5 corporates high-value cash withdrawals in branch currency, within the specified time frame.
- **Product-wise Instrument Collection Flow – Value:** This portlet displays a line graph representing the monthly instrument-collection amount in branch currency, for each product that is associated with 'paper-based' category. Each product has a specific color code. You can alter the 'From Date' and 'To Date' by clicking the Filter icon and selecting the required dates. Flip the portlet using the arrow on the side to view the 'Product-wise Instrument Collection – Volume' graph, which displays the count of instruments for each product, for the specified time frame. Click to view the details in a tabular format.

Perform the following actions on the **Dashboard** screen:

- To add more portlets, click **Add** icon located at the top-right corner of the **Dashboard**.
- To remove a portlet, click **Remove** icon located at the portlet's top-right corner.
- To configure the portlet, click the **Configure Tile** icon located at the portlet's top-left corner.
- To flip the portlet view, click **Flip Forward** or **Flip Back** icon.

- To change the portlet's position, click and hold the 'Drag to reorder' (.....) icon at the portlet's bottom-center and then move the portlet to the desired position.
- To apply filters on the portlet's data, click **Filter** icon to view the pop-up to select the filter values.

2

System Parameters

This topic describes the information to view and modify the day-zero system parameters for Oracle® Banking Cash Management Cloud Service.

The day-zero parameters are segregated into the two data segments as follows.

- Workflow Parameters
- Integration Parameters
- [View System Parameters](#)

This topic describes the systematic instruction to view, modify, or authorize the day zero system parameters for Oracle® Banking Cash Management Cloud Service.

2.1 View System Parameters

This topic describes the systematic instruction to view, modify, or authorize the day zero system parameters for Oracle® Banking Cash Management Cloud Service.

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **System Parameters**.
2. Under **System Parameters**, click **View System Parameters**.

The **View System Parameters** screen displays.

Figure 2-1 View System Parameters

3. Filter the records in the **View** screen:

- a. Click **Search** icon to view the filters. The user can filter the records by Authorization Status and Record Status.
- b. Select the required filter criteria and click **Search** to filter the records.
- c. Click **Reset** to reset the filter criteria.
4. Click **Refresh** icon to refresh the records.
5. Click **Options** icon and select **Unlock** to modify the records.

The **System Parameters - Workflow Parameters** screen displays.

Figure 2-2 System Parameters - Workflow Parameters

6. On **Workflow Parameters** tab, select the toggles to configure the workflow parameters. For more information on fields, refer to the field description table.

Table 2-1 Workflow Parameters - Field Description

Field	Description
Auto Auth - Collections	Select the toggle switch to enable or disable the auto authorization of the instrument collections.
Auto Auth - Inst Management	Select the toggle switch to enable or disable the auto authorization of all the actions performed by the maker in Instrument Management.
Auto Auth - Cash Withdrawal	Select the toggle switch to enable or disable the auto authorization of the cash withdrawal.
Auto Auth - Cashflow	Select the toggle switch to enable or disable the auto authorization of the cash flow transactions.
Acc Entry Gen - Inst Collection	Select the toggle switch to enable or disable the generation of accounting entries through the Instrument Management/Instrument Collection workflow.
Acc Entry Gen - Inst Management	Select the toggle switch to enable or disable the generation of accounting entries through the Instrument Management workflow when the Instrument Status is marked as Realized or Return .
Acc Entry Gen - Cash Withdrawal	Select the toggle switch to enable or disable the generation of accounting entries through the Cash Withdrawal workflow.
Acc Entry Gen - Cash Deposit	Select the toggle switch to enable or disable the generation of accounting entries through the Cash Deposit workflow.

Table 2-1 (Cont.) Workflow Parameters - Field Description

Field	Description
Derive Expected Clearing Date	Select the toggle switch to enable or disable the derivation of the expected clearing date for an instrument sent for clearing.
Block Amount - Cash Withdrawal	Select the toggle switch to enable or disable whether the request has to be sent to the core system for blocking/earn marking the Cash Withdrawal amount.
Denomination Req'd - Cash Withdrawal	Select the toggle switch to enable or disable whether the denomination section to be mandatory/non-mandatory in Cash Withdrawal screen.
Denomination Req'd - Cash Deposit	Select the toggle switch to enable or disable whether the denomination section to be mandatory/non-mandatory in Cash Deposit screen.
Rework Allowed - Inst Management	Select the toggle switch to enable or disable the rework for the rejected instruments in Instrument Management.
Rework Allowed - Cash Withdrawal	Select the toggle switch to enable or disable the rework for the rejected Cash Withdrawal transactions.
Auto Auth - Netting Management	Select the toggle switch to enable or disable the auto authorization of the netting management.
Auto Auth - Netting Management (Channel)	Select the toggle switch to enable or disable the auto authorization of the netting management through the external channel.
Rework Allowed - Netting Management	Select the toggle switch to enable or disable the rework for the rejected the netting management.
Rework Allowed - Netting Management (Channel)	Select the toggle switch to enable or disable the rework for the rejected netting management through the external channel.
Fetch Invoice Param from Structure	Select the toggle switch to enable or disable the option to fetch the invoice parameters from the netting Structure.
Auto Auth - netting Payout (Channel)	Select the toggle switch to identify whether AutoAuth is required for Netting transactions.
Rework Allowed - netting Payout (Channel)	Select the toggle switch to identify whether Rework is allowed for Netting transactions.
Batch Run Date range- Netting Batch inquiry	Select the date range which refers to the date when Structure was part of eligibility job.
PDC Activation Day	Specify the number of days prior to the instrument date to activate the Post Dated Cheque for processing.
Review channel request	Select the toggle switch to enable or disable the option to fetch OBDX initiated transaction from Channel Transaction.

7. Click **Next** button.

The **System Parameters - Integration Parameters** screen displays.

Figure 2-3 System Parameters - Integration Parameters

8. On **Integration Parameters** tab, select the toggles to configure the integration parameters. For more information on fields, refer to the field description table.

Table 2-2 Integration Parameters - Field Description

Field	Description
Online Posting - Inst Collection	Select the toggle switch to enable or disable the online posting of the financial transactions related to the Instrument Collection/Instrument Management in accounting system.
Online Posting - Inst Management	Select the toggle switch to enable or disable the online posting of the financial transactions related to the Instrument Management in accounting system when the Instrument Status is marked as Realized or Return .
Online Posting - Cash Withdrawal	Select the toggle switch to enable or disable the online posting of the financial transactions related to the Cash Withdrawal in accounting system.
Online Posting - Cash Deposit	Select the toggle switch to enable or disable the online posting of the financial transactions related to the Cash Deposits in accounting system.
Allow Cashflow ML	Select the toggle switch to enable or disable the population of cashflow based on AI/Machine learning.

9. Click **Next** button.

The **System Parameters - Application Parameters** screen displays.

Figure 2-4 System Parameters - Application Parameters

10. On **Application Parameters** tab, select the Application to configure the Application parameters.

For more information on fields, refer to the field description table.

Table 2-3 Application Parameters - Field Description

Field	Description
Language	Select the language in which the specific application parameter value to be displayed.
Code	Specify the Code to List the value's for the specific application parameter.
Description	Specify the Description to the List of value's for the specific application parameter.

11. Filter the records in the **Application Parameter** screen:
 - a. Select the required filter criteria and click **Search** to filter the records.
 - b. Click **Reset** to reset the filter criteria.
 - c. Click Add Icon to add a new value in the given application parameter.
12. Click **Options** icon and then select any of the following options:
 - a. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.
 - Optional: Click **View** to view the record details.
 - Select the record and click **Approve** to approve the record.
 - Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
 - b. **View** – To view the record details.

3

Maintenance for Collections

This topic describes the maintenance of reference data to be set on day zero to use the Collections functionality.

In the context of collections, for instance, you need to set up reference data like locations, product types, product mappings, and so on. This is the first step for initiating any transaction of collections. You may also need to identify administrators among the officers of your bank to whom you could assign the administration of the Collections system.

Maintaining Core Reference Data

Your bank needs to set up certain core reference data for the Collections system to work such as list of country, currency, customer category, list of holidays, list of banks, branch, FX rates, and so on.

Refer **Oracle Banking Common Core User Guide** for setting up core reference data.

This topic contains the following subtopics:

- [Accounting Maintenance](#)
This topic describes the information to setup the reference data for Accounting such as account mapping, entry codes, roles, and accounting entries in Cash Management system.
- [Arrangement Definition Maintenance](#)
This topic describes the information to define various arrangement templates which is a group different arrangement parameter based on arrangement reference i.e., on deposit or liquidation and further link the same to an arrangement party i.e., Corporate or Correspondent bank.
- [Arrangement Decisioning Maintenance](#)
This topic describes the information to setup the reference data to maintain the mappings between arrangement codes and the corporates in Cash Management system.
- [Corporate Enrichment Maintenance](#)
This topic describes the information to maintain the various parameters at the Corporate level in Cash Management system.
- [Charges Maintenance](#)
This topic describes the information to setup the reference data to maintain the charges in Cash Management system.
- [Cash Denomination Maintenance](#)
This topic describes the information to setup the reference data to maintain the denominations for cash transactions of various currencies in Cash Management system.
- [Courier Setup Maintenance](#)
This topic describes the information to setup the reference data to maintain the courier company's details in Cash Management system.
- [Location Maintenance](#)
This topic describes the information to setup the reference data to maintain the various parameters for a specific location in Cash Management system.

- [Location Cluster Maintenance](#)
This topic describes the information to setup the reference data to maintain the location cluster in Cash Management system.
- [Non System Bank Master](#)
This topic describes the information to setup the reference data for non-system bank details in Cash Management system.
- [Non System Bank Branch Master](#)
This topic describes the information to setup the reference data for the branch details of the non-system banks in Cash Management system.
- [PDC Vault Box Maintenance](#)
This topic describes the information to setup the reference data to create/maintain vault boxes that can be used for storing the PDC instruments in Cash Management system.
- [Product Definition Maintenance](#)
This topic describes the information to maintain the product definitions in Cash Management system.
- [Alerts Maintenance](#)
This topic describes the information to setup the reference data for Alerts such as contact details, definition and decisioning in Cash Management system.

3.1 Accounting Maintenance

This topic describes the information to setup the reference data for Accounting such as account mapping, entry codes, roles, and accounting entries in Cash Management system.

- [Accounting Role](#)
This topic describes the information to setup the reference data for Accounting roles in Cash Management system.
- [Entry Codes](#)
This topic describes the information to setup the reference data for entry codes in Cash Management system.
- [Accounting Entries](#)
This topic describes the information to setup the reference data for Accounting entries in Cash Management system.
- [Internal Account Mapping](#)
This topic describes the information to setup the reference data for internal account mapping in Cash Management system.

3.1.1 Accounting Role

This topic describes the information to setup the reference data for Accounting roles in Cash Management system.

- [Create Accounting Role](#)
This topic describes the systematic instruction to create role codes for the purpose of accounting.
- [View Accounting Role](#)
This topic describes the systematic instruction to view, modify, delete, or authorize accounting role records that have been created.

3.1.1.1 Create Accounting Role

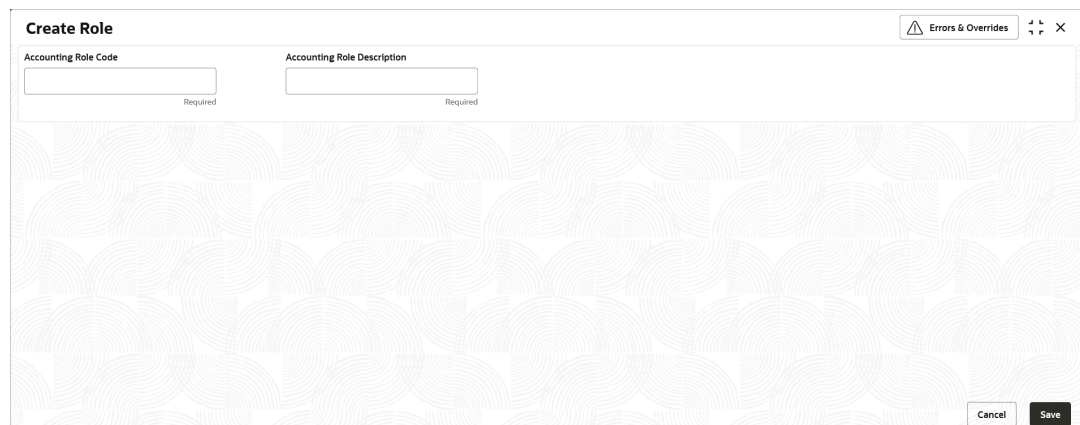

This topic describes the systematic instruction to create role codes for the purpose of accounting.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Maintenance**.
2. Under **Maintenance**, click **Accounting**. Under **Accounting**, click **Role**.
3. Under **Role**, click **Create Accounting Role**.

The **Create Accounting Role** screen displays.

Figure 3-1 Create Accounting Role

4. Specify the fields on **Create Accounting Role** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-1 Create Accounting Role - Field Description

Field	Description
Accounting Role Code	Specify a unique code for the accounting role being created.
Accounting Role Description	Specify a description to associate with the role.

5. Click **Save** to save the record and send it for authorization.

3.1.1.2 View Accounting Role

This topic describes the systematic instruction to view, modify, delete, or authorize accounting role records that have been created.

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

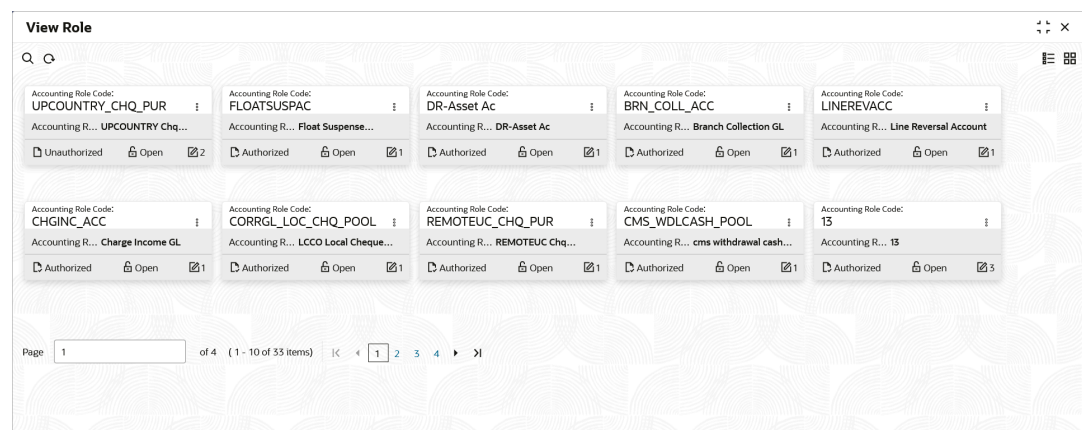

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Maintenance**.
2. Under **Maintenance**, click **Accounting**. Under **Accounting**, click **Accounting Role**.
3. Under **Accounting Role**, click **View Accounting Role**.

The **View Accounting Role** screen displays.

Figure 3-2 View Accounting Role

4. Filter the records in the **View** screen:
 - a. Click **Search** icon to view the filters. The user can filter the records by Accounting Role Code, Accounting Role Description, Authorization Status and Record Status.
 - b. Select the required filter criteria and click **Search** to filter the records.
 - c. Click **Reset** to reset the filter criteria.
5. Click **Refresh** icon to refresh the records.
6. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.
 - b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.
 - Optional: Click **View** to view the record details.

- Select the record and click **Approve** to approve the record.
- Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
- c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
- d. **Copy** – To copy the record parameters for creating a new record.
- e. **View** – To view the record details.
- f. **Reopen** – To reopen the closed record.

3.1.2 Entry Codes

This topic describes the information to setup the reference data for entry codes in Cash Management system.

- [Create Entry Codes](#)
This topic describes the systematic instruction to create entry codes for the purpose of accounting.
- [View Entry Codes](#)
This topic describes the systematic instruction to view, modify, delete, or authorize accounting entry codes that have been created.

3.1.2.1 Create Entry Codes

This topic describes the systematic instruction to create entry codes for the purpose of accounting.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Maintenance**.
2. Under **Maintenance**, click **Accounting**. Under **Accounting**, click **Entry Codes**.
3. Under **Entry Codes**, click **Create Entry Codes**.

The **Create Entry Codes** screen displays.

Figure 3-3 Create Entry Codes

- Specify the fields on **Create Entry Codes** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-2 Create Entry Codes - Field Description

Field	Description
Accounting Entry Code	Specify a unique identification code for the accounting entry.
Accounting Entry Description	Specify a description for the accounting entry.
Debit Role	Select the role of the debit party.
Debit Party	Select the party type to debit.
Debit Amount Type	Select the amount type to debit.
Debit Settlement Method	Select the method to be used for debit settlement.
Credit Role	Select the role of the credit party.
Credit Party	Select the party to credit.
Credit Amount Type	Select the amount type to credit.
Credit Settlement Method	Select the method to be used for credit settlement.

- Click **Add/Edit** to add the details to the grid.
 - Click  icon in the **Action** column to edit or delete the row.
- Click **Reset** to clear the selected values, if required.
- Click **Save** to save the record and send it for authorization.

3.1.2.2 View Entry Codes

This topic describes the systematic instruction to view, modify, delete, or authorize accounting entry codes that have been created.

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

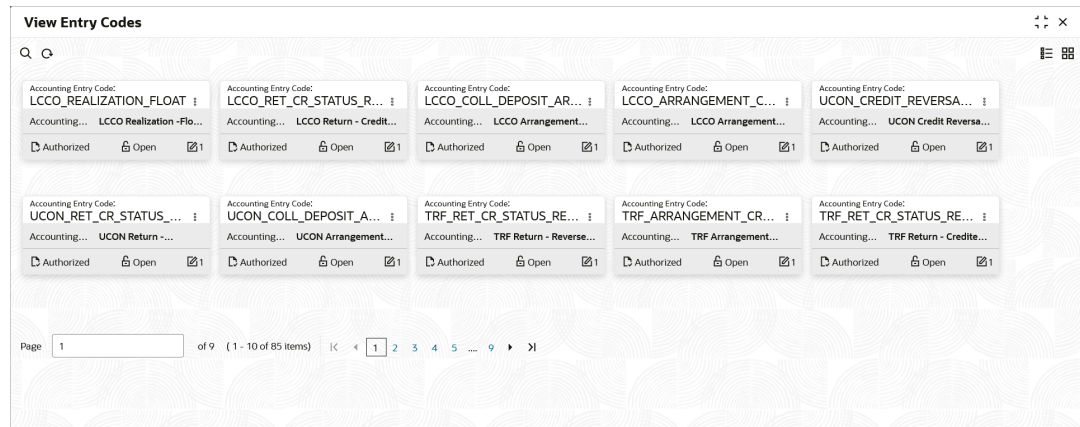

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

- On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Maintenance**.
- Under **Maintenance**, click **Accounting**. Under **Accounting**, click **Entry Codes**.
- Under **Entry Codes**, click **View Entry Codes**.

The **View Entry Codes** screen displays.

Figure 3-4 View Entry Codes

4. Filter the records in the **View** screen:
 - a. Click **Search** icon to view the filters. The user can filter the records by Accounting Entry Code, Accounting Entry Description, Authorization Status and Record Status.
 - b. Select the required filter criteria and click **Search** to filter the records.
 - c. Click **Reset** to reset the filter criteria.
5. Click **Refresh** icon to refresh the records.
6. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.
 - b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.
 - Optional: Click **View** to view the record details.
 - Select the record and click **Approve** to approve the record.
 - Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
 - c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
 - d. **Copy** – To copy the record parameters for creating a new record.
 - e. **View** – To view the record details.
 - f. **Reopen** – To reopen the closed record.

3.1.3 Accounting Entries

This topic describes the information to setup the reference data for Accounting entries in Cash Management system.

- [Create Accounting Entries](#)
This topic describes the systematic instruction to create accounting entries.
- [View Accounting Entries](#)
This topic describes the systematic instruction to view, modify, delete, or authorize the accounting entries that have been created.

3.1.3.1 Create Accounting Entries

This topic describes the systematic instruction to create accounting entries.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Maintenance**.
2. Under **Maintenance**, click **Accounting**. Under **Accounting**, click **Accounting Entries**.
3. Under **Accounting Entries**, click **Create Accounting Entries**.

The **Create Accounting Entries** screen displays.

Figure 3-5 Create Accounting Entries

4. Specify the fields on **Create Accounting Entries** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-3 Create Accounting Entries - Field Description

Field	Description
Branch	Select the Branch to add accounting entries for. Values in this field are listed based on your access rights.
Product	Select the product to add accounting entries for.
Event	Select the event to add accounting entries for.
Filter Criteria	Select the filter criteria for which the accounting entries are to be added. Based on the selected filter criteria, select the type/mode from the respective field(s) that appear.

Table 3-3 (Cont.) Create Accounting Entries - Field Description

Field	Description
Credit Status	Select the current status of a credit entry. This field is displayed only if Filter Criteria is selected as Credit Status .
Instrument Status	Select the current status of an instrument. This field is displayed only if Filter Criteria is selected as Instrument Status .
Credit Reversal From	Select the value to specify from where the credit reversal will take place. This field is displayed only if Filter Criteria is selected as Credit Reversal From .
Return Recovery From	Select the value to specify from where the return recovery will take place. This field is displayed only if Filter Criteria is selected as Return Recovery From .
Float	Click 'Yes' to enable the float arrangements, else click 'No'. This field is displayed only if Filter Criteria is selected as Float Arrangement .
Accounting Entry Code	Click the Search icon to select the required accounting entry code.
Accounting Entry Description	Displays the description of the selected entry code.
Sequence	Select the sequence to be set for the accounting entry code.

5. Click **Add/Edit** to add the details to the grid.
 - Click  icon in the **Action** column to edit or delete the row.
6. Click **Reset** to clear the selected values, if required.
7. Click **Save** to save the record and send it for authorization.

3.1.3.2 View Accounting Entries

This topic describes the systematic instruction to view, modify, delete, or authorize the accounting entries that have been created.

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Maintenance**.

2. Under **Maintenance**, click **Accounting**. Under **Accounting**, click **Accounting Entries**.
 3. Under **Accounting Entries**, click **View Accounting Entries**.
- The **View Accounting Entries** screen displays.

Figure 3-6 View Accounting Entries

The screenshot shows the 'View Accounting Entries' interface. It features a search bar at the top left and a grid of 10 record cards. Each card contains the following information:

- Product:** LCCO, UCON, or TRF.
- Event:** REALIZATION, COLLECTION_DEPOSIT, ARRANGEMENT_CREDIT, CREDIT_REVERSAL, ARRANGEMENT_CREDIT, RETURN, CREDIT_STATUS_RETUF, COLLECTION_DEPOSIT, or RETURN.
- Filter Criteria:** FLOAT, DEFAULT, DEFAULT, CREDIT_REVERSAL_FRC, INSTRUMENT_STATUS, CREDIT_STATUS_RETUF, DEFAULT, or CREDIT.
- Credit Status:** N/A or REALIZED.
- Instrument Status:** N/A or REALIZED.
- Actions:** Authorized, Open, and a list icon.

At the bottom, there is a pagination bar showing 'Page 1 of 9 (1 - 10 of 87 items)' and navigation controls.

4. Filter the records in the **View** screen:
 - a. Click **Search** icon to view the filters. The user can filter the records by Product, Event, Credit Status, Instrument Status, Authorization Status and Record Status.
 - b. Select the required filter criteria and click **Search** to filter the records.
 - c. Click **Reset** to reset the filter criteria.
5. Click **Refresh** icon to refresh the records.
6. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.
 - b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.
 - Optional: Click **View** to view the record details.
 - Select the record and click **Approve** to approve the record.
 - Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
 - c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
 - d. **Copy** – To copy the record parameters for creating a new record.
 - e. **View** – To view the record details.
 - f. **Reopen** – To reopen the closed record.

3.1.4 Internal Account Mapping

This topic describes the information to setup the reference data for internal account mapping in Cash Management system.

- [Create Internal Account Mapping](#)
This topic describes the systematic instruction to create internal account mapping.
- [View Internal Account Mapping](#)
This topic describes the systematic instruction to view, modify, delete, or authorize internal account mapping records that have been created.

3.1.4.1 Create Internal Account Mapping

This topic describes the systematic instruction to create internal account mapping.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Maintenance**.
2. Under **Maintenance**, click **Accounting**. Under **Accounting**, click **Internal Account Mapping**.
3. Under **Internal Account Mapping**, click **Create Internal Account Mapping**.

The **Create Internal Account Mapping** screen displays.

Figure 3-7 Create Internal Account Mapping

4. Specify the fields on **Create Internal Account Mapping** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-4 Create Internal Account Mapping - Field Description

Field	Description
Branch	Select the branch in which account is maintained.

Table 3-4 (Cont.) Create Internal Account Mapping - Field Description

Field	Description
Product	Select the product for which internal account mapping is to be maintained. The user can select ALL if the account is to be used for all the products.
Role	Click the search icon to select the accounting role to map the account to.
Account Type	Switch the toggle button to select either CASA or GL for the mapping.
Settlement Method	Displays the Cus A/C or Internal GL based on selection of Account type either CASA or GL .
Account in Transaction Currency	Use this toggle button to specify whether the accounting should be done in transaction currency or not.
Filter Criteria	<p>Select any one of the following criteria: If Account type is selected as CASA, the available Options are:</p> <ul style="list-style-type: none"> • Party Location Division Based • Party Location Based • Party Division Based • Party Based <p>If Account type is selected as GL, the available Options are:</p> <ul style="list-style-type: none"> • Party Location Division Based • Party Location Based • Party Division Based • Party Based • Payin Netting entity based • Payout netting entity based • default <p>Based on the selected filter criteria, select the required values from the respective fields that appear.</p>
Party	Click the search icon and select the party to whose account is to be mapped. This field is displayed only if Filter Criteria selected as Party .
Location	Click the search icon and select the location to whose account is to be mapped. This field is displayed only if Filter Criteria selected as Location .
Division Code	Click the search icon and select the division code. This field is displayed only if Filter Criteria selected as Division .
Payin Netting Entity Based	Click the search icon and select the Entity to whose account is to be mapped. The Available options are: <ul style="list-style-type: none"> • Global Netting Center • Sub Center • Corporate This field is displayed only if Filter Criteria selected as Payin Netting Entity Based .
Payout Netting EntityBased	Click the search icon and select the Entity to whose account is to be mapped. The Available options are: <ul style="list-style-type: none"> • Global Netting Center • Sub Center • Corporate This field is displayed only if Filter Criteria selected as Payout Netting Entity Based .

Table 3-4 (Cont.) Create Internal Account Mapping - Field Description

Field	Description
Account Currency	Select the currency of the account to be mapped.
Account Number	Click the Search icon and select real/virtual account number.
Default Account	Use this toggle button to specify if this account should be considered as the default one.

5. Click **Add/ Edit** to add the details to the grid.
 - Click  icon in the **Action** column to edit or delete the row.
6. Click **Reset** to clear the selected values, if required.
7. Click **Save** to save the data and send it for authorization.

3.1.4.2 View Internal Account Mapping

This topic describes the systematic instruction to view, modify, delete, or authorize internal account mapping records that have been created.

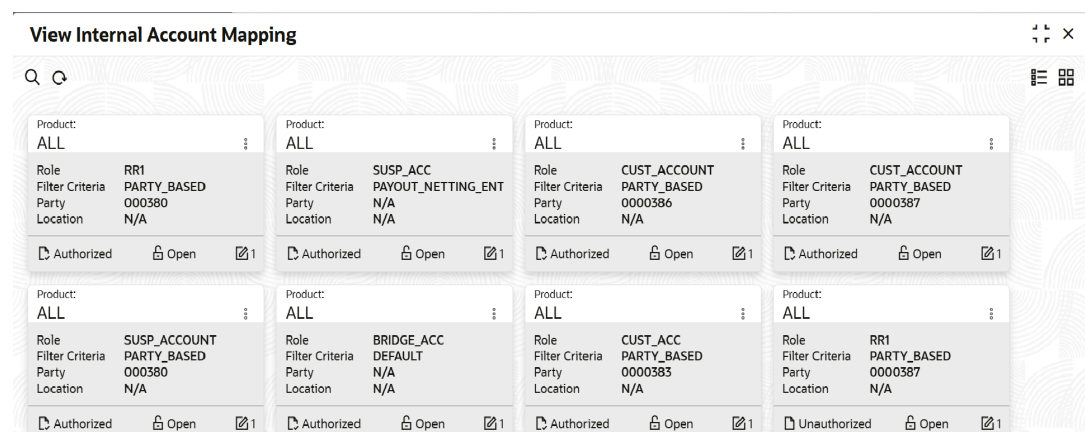

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Maintenance**.
2. Under **Maintenance**, click **Accounting**. Under **Accounting**, click **Internal Account Mapping**.
3. Under **Internal Account Mapping**, click **View Internal Account Mapping**.

The **View Internal Account Mapping** screen displays.

Figure 3-8 View Internal Account Mapping

View Internal Account Mapping			
Product: ALL Role: RR1 Filter Criteria: PARTY_BASED Party: 000380 Location: N/A Authorized Open 1	Product: ALL Role: SUSP_ACC Filter Criteria: PAYOUT_NETTING_ENT Party: N/A Location: N/A Authorized Open 1	Product: ALL Role: CUST_ACCOUNT Filter Criteria: PARTY_BASED Party: 0000386 Location: N/A Authorized Open 1	Product: ALL Role: CUST_ACCOUNT Filter Criteria: PARTY_BASED Party: 0000387 Location: N/A Authorized Open 1
Product: ALL Role: SUSP_ACCOUNT Filter Criteria: PARTY_BASED Party: 000380 Location: N/A Authorized Open 1	Product: ALL Role: BRIDGE_ACC Filter Criteria: DEFAULT Party: N/A Location: N/A Authorized Open 1	Product: ALL Role: CUST_ACC Filter Criteria: PARTY_BASED Party: 0000383 Location: N/A Authorized Open 1	Product: ALL Role: RR1 Filter Criteria: PARTY_BASED Party: 0000387 Location: N/A Unauthorized Open 1

4. Filter the records in the **View** screen:

- a. Click **Search** icon to view the filters. The user can filter the records by Branch, Product, Role, Party, Location, Authorization Status and Record Status.
Note: The user can select **ALL** if the account is to be used for all the products.
- b. Select the required filter criteria and click **Search** to filter the records.
- c. Click **Reset** to reset the filter criteria.
5. Click **Refresh** icon to refresh the records.
6. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.
 - b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.
 - Optional: Click **View** to view the record details.
 - Select the record and click **Approve** to approve the record.
 - Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
 - c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
 - d. **Copy** – To copy the record parameters for creating a new record.
 - e. **View** – To view the record details.
 - f. **Reopen** – To reopen the closed record.

3.2 Arrangement Definition Maintenance

This topic describes the information to define various arrangement templates which is a group different arrangement parameter based on arrangement reference i.e., on deposit or liquidation and further link the same to an arrangement party i.e., Corporate or Correspondent bank.

Banks can make funds available to corporate parties even before the cheques are cleared. This is referred to as an 'Arrangement'. However, if the instrument collection fails or is delayed, or even if the instrument is marked as 'Returned', then the banks need to recover the funds through credit reversal. The Arrangement Definition screen enables banks to create arrangement and recovery parameters, with respect to the collections facility. Once an Arrangement Definition is created, it can be linked to the required corporate party and product using the Arrangement Decisioning screen.

The arrangements reference for the Collections module in Oracle® Banking Cash Management Cloud Service is based on the following two parameters:

- **Deposit Date:** For the arrangement based on deposit date, the bank provides the corporate an option of different arrangement days on which the corporate desires the payment of funds against instruments deposited by the corporate. The arrangement days depend on the charge the corporate is willing to pay, and the desired liquidity. Thus, the bank pays the amount to the corporate on the arrangement day or value date on presenting a cheque. For example, if a corporate has opted for a 'Day + 1' arrangement with the bank, then the corporate will receive the funds 1 day after the instrument has been deposited regardless of the actual number of days required to clear the instrument.

- **Realization Date:** For the arrangement based on realization date, the corporate receives credit only after the instrument has been marked as cleared in the system. If the instrument has been returned (for reasons such as insufficient funds in the drawer's account, discrepancy in the signature, and so on), then the corporate does not receive the funds.

This topic contains the following subtopics:

- [Create Arrangement Definition](#)
This topic describes the systematic instruction to create arrangement codes.
- [View Arrangement Definition](#)
This topic describes the systematic instruction to view, modify, delete, or authorize arrangement code details.

3.2.1 Create Arrangement Definition

This topic describes the systematic instruction to create arrangement codes.

Newly created arrangement codes take effect once authorized and cannot be modified thereafter.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Arrangement Definition**.
3. Under **Arrangement Definition**, click **Create Arrangement Definition**.

The **Create Arrangement Definition** screen displays.

Figure 3-9 Create Arrangement Definition

4. Specify the fields on **Create Arrangement Definition** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-5 Create Arrangement Definition - Field Description

Field	Description
Arrangement Code	Specify a unique alphanumeric code for the arrangement. This code cannot be modified once authorized.
Arrangement Description	Specify a description for the arrangement. For example, for a corporate having an arrangement day on the deposit date, enter a description such as 'On Deposit Arrangement' and for a corporate having an arrangement day on the realization date, enter a description such as 'On Realization Arrangement'.
Arrangement Reference Basis	Select whether the arrangement should be set with reference to the deposit date or the realization date.
Arrangement Days	Specify the number of days on which the funds should be credited to the corporate on the basis of the selected arrangement reference. For example, If the 'Arrangement Reference Basis' field is set to 'Deposit Date' and Arrangement Day is set to 1, then the amount is credited to the corporate on the next day of the cheque deposit. The maximum value that can be entered is 99. The default value is zero. Leaving this field blank considers the default value.
Corporate Release Days	Specify the number of days post funds release, that the corporate can withdraw/utilize the funds. Based on the arrangement, the corporate account will be credited. However, the amount will be blocked for the number of days entered in this field. The maximum value that can be entered is 99. The default value is zero. Leaving this field blank considers the default value.
Extension Days - Instrument Lost	In case the cheque is lost in transit, Specify the number of days to be given as an extension to the corporate before their account is debited.
Extension Days - Certificate	Specify the number of days to extend the line of credit (tenor) given to the corporate. For example, when the instrument does not get cleared within the scheduled time, the corporate can get a certificate from the drawer's bank. This is in the form of a letter stating that the drawer's account balance is sufficient to make the payment to the corporate, or that the drawer's account has already been debited, thus indicating that the instrument has been cleared. However, the correspondent bank/ drawer bank might not have conveyed the same information to the system bank. In such case, giving an extension will extend the line of credit (tenor) given to the corporate as defined in the 'Certificate Extension Days' field. The maximum value that can be entered is 99. The default value is zero. Leaving this field blank considers the default value.
Extension Days - Instrument Return	Specify the number of days to be given as an extension window for the corporate in case the cheque is returned.
Credit Reversal Days	Specify the number of days post which the pooling job should initiate reversal of credit from the corporate's account.
Credit Reversal From	Select the value to specify from where the recovery can be done in case the clearing fate of the instrument is unknown.
Partial Credit Reversal	Switch the toggle ON if recovery can be done in tranches. In other words, even if the collections amount or the CASA account balance is less than the total amount to be reversed, multiple collections or multiple debits to the CASA will be performed, until such time that the credit amount is nullified. Else, credit reversal is done only if and when the next collection's batch amount or CASA account balance is equal to or greater than the amount to be recovered.

Table 3-5 (Cont.) Create Arrangement Definition - Field Description

Field	Description
Bank Float Arrangement	Switch the toggle ON to utilize the processed instruments that are realized before arrangement credit to the corporate.
Return Recovery From	Select the value to specify from where the recovery can be done in case of returned instrument.
Partial Return Recovery	Switch the toggle ON if recovery can be done in tranches. In other words, even if the collections amount or account balance is less than the total amount to be recovered, multiple collections or account debits to CASA will be performed until such time that the recovery amount is nullified. Else, credit reversal is done only if and when the next collection's batch amount or CASA account balance is equal to or greater than the amount that needs to be recovered.
Forced Debit for Recovery	Switch the toggle ON to allow an entry with negative amount to be passed by core banking in case reversal or recovery should be done from a customer's bank account that has insufficient balance.

- Click **Save** to save the record and send it for authorization.

3.2.2 View Arrangement Definition

This topic describes the systematic instruction to view, modify, delete, or authorize arrangement code details.

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

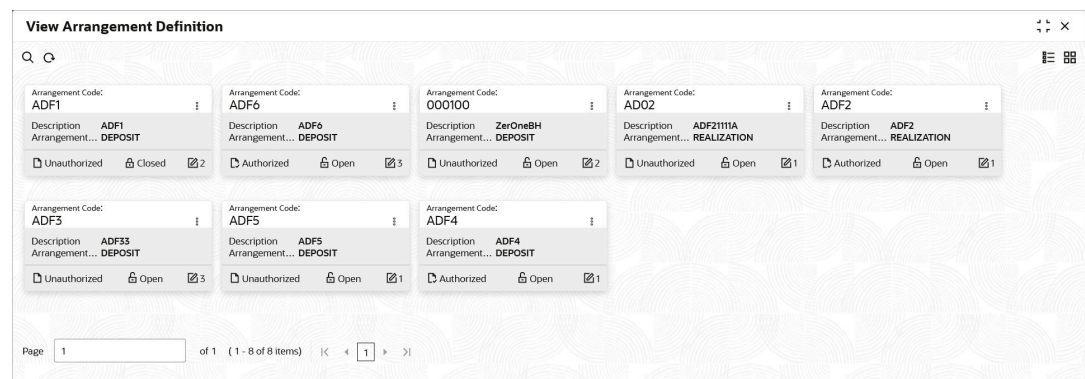

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

- On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
- Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Arrangement Definition**.
- Under **Arrangement Definition**, click **View Arrangement Definition**.

The **View Arrangement Definition** screen displays.

Figure 3-10 View Arrangement Definition

4. Filter the records in the **View** screen:
 - a. Click **Search** icon to view the filters. The user can filter the records by Accounting Code, Description, Record Status and Authorization Status.
 - b. Select the required filter criteria and click **Search** to filter the records.
 - c. Click **Reset** to reset the filter criteria.
5. Click **Refresh** icon to refresh the records.
6. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.
 - b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.
 - Optional: Click **View** to view the record details.
 - Select the record and click **Approve** to approve the record.
 - Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
 - c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
 - d. **Copy** – To copy the record parameters for creating a new record.
 - e. **View** – To view the record details.
 - f. **Reopen** – To reopen the closed record.

3.3 Arrangement Decisioning Maintenance

This topic describes the information to setup the reference data to maintain the mappings between arrangement codes and the corporates in Cash Management system.

Once the arrangement code is defined, Arrangement Decisioning screen helps to map such templates at the corporate level. The user can map the existing arrangement codes or define new arrangement settings for the Corporate/Drawee bank/Correspondent bank.

This topic contains the following subtopics:

- [Create Arrangement Decisioning](#)
This topic describes the systematic instruction to link the existing arrangement codes with the arrangement party (Corporate/Correspondent bank) or define a new arrangement.
- [View Arrangement Decisioning](#)
This topic describes the systematic instruction to view, modify, delete, or authorize arrangement decisioning details.

3.3.1 Create Arrangement Decisioning

This topic describes the systematic instruction to link the existing arrangement codes with the arrangement party (Corporate/Correspondent bank) or define a new arrangement.

The Arrangement Decisioning is driven by a combination of the following fields:

- Product

- Effective Date
- Arrangement Party
- Corporate/Drawee bank/Correspondent bank
- Payable at Location (if available)

Newly created mapping takes effect once authorized and cannot be modified thereafter.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Arrangement Decisioning**.
3. Under **Arrangement Decisioning**, click **Create Arrangement Decisioning**.

The **Create Arrangement Decisioning** screen displays.

4. Specify the fields on **Create Arrangement Decisioning** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-6 Create Arrangement Decisioning - Field Description

Field	Description
Apply for All Products	Switch the toggle ON to apply the arrangement decisioning to all products.
Product	Select the product to apply the arrangement decisioning to.
Arrangement Party	Select the arrangement party (Corporate/Correspondent Bank) to link the existing arrangement to or to define a new arrangement for. This field cannot be modified once authorized.
Filter Criteria	<p>Select a value which indicates whether the setup is done for the Corporate/Correspondent Bank at broad level or with a combination of different parameters along with the arrangement party. For example: If the Arrangement Party is selected as Corporate, then the available options are:</p> <ul style="list-style-type: none"> • Corporate • Corporate and Payable At Location • Corporate and Drawee Bank • Drawee Bank and Payable At Location • Corporate and Drawee Bank and Payable At Location • Default <p>If the Arrangement Party is selected as Correspondent Bank, then the available options are:</p> <ul style="list-style-type: none"> • Correspondent Bank • Correspondent Bank and Payable At Location • Correspondent Bank and Drawee Bank and Payable At Location • Default <p>Based on the selected value, the relevant additional fields gets displayed on the screen.</p> <p>For example: In case, the 'Corporate and Payable At Location' value is selected from the Filter Criteria list, an additional field is displayed for selecting the location.</p> <p>The filter criteria cannot be modified once authorized.</p>
Payable at Location	<p>Click the search icon to select the location from where an amount can be paid.</p> <p>This field is displayed only if the Filter Criteria is selected as Payable At Location.</p>
Drawee Bank	<p>Click the search icon to select the bank on which the cheque is drawn.</p> <p>This field is enabled only for the below filter criteria:</p> <ul style="list-style-type: none"> • Corporate and Drawee Bank • Corporate and Drawee Bank and Payable at Location • Drawee Bank and Payable at Location • Correspondent Bank and Drawee Bank and Payable at Location
Corporate / Correspondent Bank	Click the Search icon to select name of the corporate or the correspondent bank. This field cannot be modified once authorized.
Effective Date	Click the Calendar icon and select the date from which the arrangement will be effective. By default, the branch date is selected. This field cannot be modified once authorized.
Expiry Date	Click the calendar icon and select the date on which the arrangement expires. In case the expiry date is same as the branch date then on that day's EOD, the arrangement decisioning status is marked as Close .

Table 3-6 (Cont.) Create Arrangement Decisioning - Field Description

Field	Description
Agreement Reference Number	Specify the alphanumeric agreement reference number. This number is stored as a placeholder only.
Inclusion of Holidays	Switch the toggle ON to include holidays in the calculation of expected clearing date during transaction entry for Corporates/ Correspondent bank/Drawee bank. This field cannot be modified once authorized.
Centralized Forwarding Schedule	Switch the toggle ON or OFF to enable or disable the centralized forwarding schedule. If the switch is enabled for a correspondent bank as an arrangement party, the workflow process of centralized forwarding schedule is followed by the system for all the cheques payable at selected correspondent bank in Oracle Banking Cash Management. This field is enabled only if the Arrangement Party is selected as Correspondent Bank .
Amount Based Arrangement	Switch the toggle ON, if the arrangement party (Corporate/ Correspondent bank) requires an arrangement on the basis of a cheque amount range. Enabling this field displays the grid to specify values for the amount range, arrangement code, and so on. This field cannot be modified once authorized.
Currency	Select the currency of the amount. This field is displayed only if the Amount Based Arrangement field is enabled.
From Amount	Specify the value to specify the start value of the amount range. The amount can contain up to two decimal places. For example: \$34,234,235,252,532,430,000,000,000.00. The default value is zero. This field is displayed only if the Amount Based Arrangement toggle is enabled.
To Amount	Specify the value to specify the final value of the amount range. The amount can contain up to two decimal places. For example: \$34,234,235,252,532,430,000,000,000.00. A blank field in the last row indicates that the amount range is infinite. The default value is zero. This field is displayed only if the Amount Based Arrangement field is enabled.
Link Arrangement	Switch the toggle ON to select and link the existing arrangement code. On selecting the arrangement code, all its relevant fields are auto-populated and non-editable. This field cannot be modified once authorized.
Arrangement Code	Click the search icon to select the arrangement code. This field is displayed only if the Link Arrangement toggle is enabled.
Arrangement Reference Basis	This field cannot be modified if the Link Arrangement toggle is enabled. Otherwise, select the value to specify whether the arrangement is based on Liquidation or Deposit .
Arrangement Days	This field cannot be modified if the Link Arrangement toggle is enabled. Otherwise, Specify the number of days when the funds are channelized between banks, corporate, and so on. The maximum value that can be entered is 99. The default value is zero. Leaving this field blank considers the default value.

Table 3-6 (Cont.) Create Arrangement Decisioning - Field Description

Field	Description
Corporate Release Days	Specify the number of days post which the corporate can withdraw/ utilize the funds, post the funds are released. The corporate account is credited, based on the arrangement. However, the amount remains blocked for the number of days entered in this field. The maximum value that can be entered is 99. The default value is zero. Leaving this field blank considers the default value. This field cannot be modified if the Link Arrangement toggle is enabled.
Extension Days - Instrument Lost	This field cannot be modified if the Link Arrangement toggle is enabled. Otherwise, Specify the number of days to be given as an extension to notify the corporate that the account will get debited, in case the cheque is lost in transit.
Extension Days - Instrument Return	This field cannot be modified if the Link Arrangement toggle is enabled. Otherwise, Specify the number of days to be given as an extension window for the corporate in case the cheque is returned.
Extension Days - Certificate	Specify the number of days to extend the line of credit (tenor) given to the corporate. For example, when the instrument does not get cleared within the scheduled time, the corporate can get a certificate from the drawer's bank. This is in the form of a letter stating that the drawer's account balance is sufficient to make the payment to the corporate, or that the drawer's account has already been debited, thus indicating that the instrument has been cleared. However, the Correspondent bank/ Drawer bank might not have conveyed the same information to the system bank. In such case, giving an extension will extend the line of credit (tenor) given to the corporate as defined in this field. The maximum value that can be entered is 99. The default value is zero. Leaving this field blank considers the default value.
Credit Reversal Days	Specify the number of days post which the pooling job should initiate reversal of credit from the corporate's account.
Credit Reversal From	Select the value to specify from where the recovery can be done in case the clearing fate of the instrument is unknown.
Partial Credit Reversal	Switch the toggle ON if recovery can be done in tranches. In other words, even if the collections amount or CASA account balance is less than the total amount to be reversed, multiple collections or multiple debits to CASA will be performed, until such time that the credit amount is nullified. Else, credit reversal is done only if and when the next collection's batch amount or CASA account balance is equal to or greater than the amount to be recovered.
Bank Float Arrangement	Switch the toggle ON to utilize the processed instruments that are realized before arrangement credit to the corporate.
Return Recovery From	Select the value to specify from where the recovery can be done in case of returned instrument.

Table 3-6 (Cont.) Create Arrangement Decisioning - Field Description

Field	Description
Partial Return Recovery	Switch the toggle ON if recovery can be done in tranches. In other words, even if the collections amount or account balance is less than the total amount to be recovered, multiple collections or account debits to CASA will be performed until such time that the recovery amount is nullified. Else, credit reversal is done only if and when the next collection's batch amount or CASA account balance is equal to or greater than the amount to be recovered.
Forced Debit for Recovery	Switch the toggle ON to allow an entry with negative amount to be passed by core banking in case reversal or recovery needs to be done from a customer's bank account that has insufficient balance.
Location Name	Click the search icon to select the location applicable to the corporate. This field cannot be modified once authorized.

5. Click **Add/Edit** to add the details to the grid.
 - Click  icon in the **Action** column to edit or delete the row.
6. Click **Reset** to clear the selected values, if required.
7. Click **Save** to save the record and send it for authorization.

3.3.2 View Arrangement Decisioning

This topic describes the systematic instruction to view, modify, delete, or authorize arrangement decisioning details.

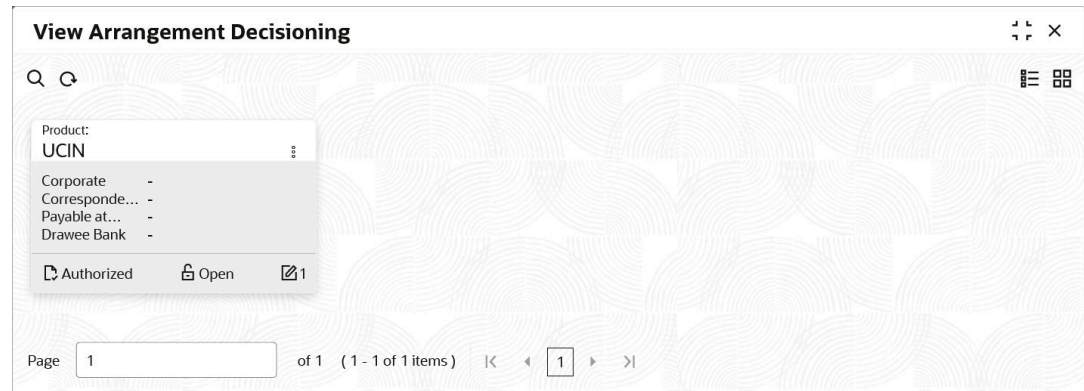

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Arrangement Decisioning**.
3. Under **Arrangement Decisioning**, click **View Arrangement Decisioning**.

The **View Arrangement Decisioning** screen displays.

Figure 3-12 View Arrangement Decisioning

4. Filter the records in the **View** screen:
 - a. Click **Search** icon to view the filters. The user can filter the records by Product, Arrangement Party, Filter Criteria, Corporate Name, Correspondent Bank, Authorization Status and Record Status.
 - b. Select the required filter criteria and click **Search** to filter the records.
 - c. Click **Reset** to reset the filter criteria.
5. Click **Refresh** icon to refresh the records.
6. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.
 - b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.
 - Optional: Click **View** to view the record details.
 - Select the record and click **Approve** to approve the record.
 - Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
 - c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
 - d. **Copy** – To copy the record parameters for creating a new record.
 - e. **View** – To view the record details.
 - f. **Reopen** – To reopen the closed record.

3.4 Corporate Enrichment Maintenance

This topic describes the information to maintain the various parameters at the Corporate level in Cash Management system.

This screen allows you to map products that are available for specific corporates. Once the product(s) are mapped, product level enrichment can be created at a deposit level or an instrument level. In case of maintaining enrichment at an instrument level, you can choose a specific product or 'All' products. There are additional fields that can be mapped for the product and applied at the time of transaction processing.

Pooling level information allows you to map the level at which the funds should be pooled. This can be 'Account', 'Division', or 'Location'.

Pick up point creation allows you to set up multiple pick-up points for the corporate.

The 'Corporate Enrichment' screen captures data in five tabs, namely – 'Corporate Information', 'Product Information', 'Corporate Pooling Setup', 'Pick Up Point Creation', and 'Delivery Point Creation'.

This topic contains the following subtopics:

- [Create Corporate Enrichment](#)
This topic describes the systematic instruction to setup corporate enrichment details for collections.
- [View Corporate Enrichment](#)
This topic describes the systematic instruction to view, modify, delete, or authorize corporate enrichment details.

3.4.1 Create Corporate Enrichment

This topic describes the systematic instruction to setup corporate enrichment details for collections.

Specify **User ID** and **Password**, and login to **Home** screen.

Corporate Information:

The **Corporate Information** tab is used to map the products available for the corporate and other parameters that are applied at the time of transaction capturing or processing. Multiple records can be added for product(s) by clicking the **Add/Edit** button. These products are available in the following tabs for enrichment.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Corporate Enrichment**.
3. Under **Corporate Enrichment**, click **Create Corporate Enrichment**.

The **Create Corporate Enrichment - Corporate Information** screen displays.

Figure 3-13 Create Corporate Enrichment - Corporate Information

4. Specify the fields on **Create Corporate Enrichment - Corporate Information** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-7 Corporate Information - Field Description

Field	Description
Corporate	Specify the corporate ID or name to add the details for. Alternatively, click the search icon to search and select the corporate. This field cannot be modified once authorized.
Division Code Info Mandatory	Switch the toggle ON, if providing division code details should be mandatory in transactions.
Drawer Info Mandatory	Switch the toggle ON, if providing drawer details should be mandatory in transactions.
Courier Service	Select the Pickup option if pick up service is required by the corporate. If selected, the details in the Pick Up Point Creation screen are mandatory. Select the Delivery option if delivery service is required by the corporate. If selected, the details in the Delivery Point Creation screen are mandatory.
Product Code	Specify the product code or click the search icon to search and select the products that should be available for enrichment and transactions.
Description	Displays the description based on the selected product code.
Status	Select the product status. The status can be toggled from Active to Closed and vice-versa. Once selected as Closed , the product will not be available for transaction and further enrichment. However, already initiated transactions for the product will be allowed to complete.

5. Perform the following actions in the **Corporate Information** screen:
 - a. Click **Add/Edit** to add the record to the grid or modify a selected record.
 - b. Under the **Actions** column, click the Kabab  icon and then click **Edit** or **Delete** to edit or remove the record respectively.
 - c. Click **Reset** to clear the selected values.
6. Click **Save and Close** to save the record and close the window.
The record is sent for authorization.
7. Click **Cancel** to close the window without saving data.

Product Information

Once the products that should be available for the Corporate are selected; this screen is used to create customized enrichment labels. These are used and validated while processing the transactions.

8. Click **Next** to move to the next screen.

The **Create Corporate Enrichment - Product Information** screen displays.

9. Specify the fields on **Create Corporate Enrichment - Product Information** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-8 Product Information - Field Description

Field	Description
Level of Enrichment	Select the value to specify that the enrichment is at Deposit or Instrument level.
Product Code	Select the product for enrichment. This field is enabled only for Instrument level enrichment.
Product Category	Select the product for enrichment as Paper Based Instrument or Cash . This field is enabled only for Deposit level enrichment.
Enrichment Label	Specify the name of an attribute to configure.
Data Type	Select one of the following data types for the attribute: <ul style="list-style-type: none"> Alphabetical – For alphabets only. Alphanumeric – For alphabets and numbers. Date – For date format only. Numeric – For number format only. Time – For time format. Date and Time – For date as well as time format.
Field length	Specify the length of the field to be validated. This field is hidden for data types that include date and time.
Validations	Select any of the following values: <ul style="list-style-type: none"> Unique – If the attribute value should be unique. Mandatory – If selecting the value for attribute is mandatory. Exact Length – If an attribute should be of specified field length. Minimum Length – Specify the minimum length of an attribute in the textbox.
Date Format	The date format is defaulted to 'YYYY-MM-DD'.

Table 3-8 (Cont.) Product Information - Field Description

Field	Description
Time	The time format is defaulted to 'HH-mm-SS'.

10. Perform the following actions in the **Product Information** screen:
 - a. Click **Add/Edit** to add the record to the grid or modify a selected record.
 - b. Under the **Actions** column, click the Kabab ⋮ icon and then click **Edit** or **Delete** to edit or remove the record respectively.
 - c. Click **Reset** to clear the selected values.
11. Click **Back** to move to the previous screen.
12. Click **Save and Close** to save the record and close the window.
The record is sent for authorization.
13. Click **Cancel** to close the window without saving data.

Corporate Pooling Setup

14. Click **Next** to move to the next screen.

The **Create Corporate Enrichment - Corporate Pooling Setup** screen displays.

Figure 3-15 Create Corporate Enrichment - Corporate Pooling Setup

15. Specify the fields on **Create Corporate Enrichment - Corporate Pooling Setup** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-9 Corporate Pooling Setup - Field Description

Field	Description
Product Category	Select the product category to setup pooling parameters for. The available options are: <ul style="list-style-type: none"> • Paper Based Instruments • Cash
Pooling Level	Select the level at which pooling needs to be done. The options are: Account , Division , and Location . Default pooling level is 'Account'. Only one type of pooling level is allowed per corporate per product category. However, different pooling levels can be maintained for each product category: for cash and for paper-based instruments. This field cannot be modified once authorized. Note: If a credit account number is entered during Deposit Entry creation, then the amount is credited to that account, and not the pooling account, for that particular deposit slip. Similarly, if a credit account number is entered when making an Instrument Collection entry, then the amount is credited to that account, and not the pooling account, for that particular instrument.
Credit Consolidation Level	Select the level at which the collection amount should be consolidated. The available options are: <ul style="list-style-type: none"> • Pooling level – The credit amount is consolidated as per the pooling level selected (Account/Division/Location). • Instrument level – The collection amount is consolidated at individual instrument level, and credited as per the pooling set up maintained. • Deposit Slip level – The collection amount is consolidated at deposit slip level, and credited as per the pooling set up maintained. • Product level – The collection amount is consolidated at product level, and credited as per the pooling set up maintained.
Percentage Pooling	Switch the toggle ON, to set the percentages (%) of allocation of the collection amount to each account, associated with the pooling level. If this toggle is not enabled, then the allocation is done to the default account maintained in the 'Internal Account Mapping' setting for the pooling level for the corporate.
Division Code	Select the required division code to set the percentage allocation for. This field is applicable only for Division type of pooling level.
Location Code	Specify or search and select the required location code to set the percentage allocation for. This field is applicable only for Location type of pooling level.
Pooling Account Number	Click the Search icon and select the real/virtual account number maintained for the selected pooling level, to set the percentage allocation for.
Percentage to be Pooled (%)	Specify the percentage value to be allocated. This field is disabled if Division Code Info Mandatory toggle is enabled in the Corporate Information screen. Total percentage value should be 100 across the selected pooling level.

16. Perform the following actions in the **Corporate Pooling Setup** screen:

- a. Click **Add/Edit** to add the record to the grid or modify a selected record.

- b. Under the **Actions** column, click the Kabab  icon and then click **Edit** or **Delete** to edit or remove the record respectively.
 - c. Click **Reset** to clear the selected values.
17. Click **Back** to move to the previous screen.
 18. Click **Save and Close** to save the record and close the window.
The record is sent for authorization.
 19. Click **Cancel** to close the window without saving data.

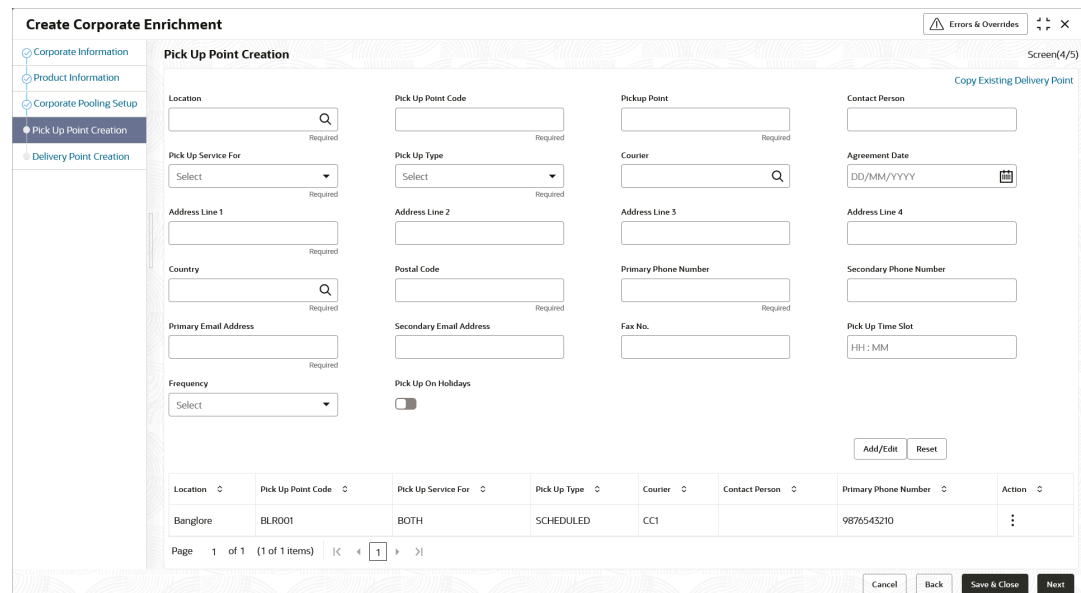

Pick Up Point Creation

Providing information on this screen is mandatory if the **Pickup** is selected in the **Courier Service** field in the **Corporate Information** screen. This screen contains all information related to the pick-up point(s).

20. Click **Next** to move to the next screen.

The **Create Corporate Enrichment - Pick Up Point Creation** screen displays.

Address Line 1	Specify the first line of the address of the delivery location.
Address Line 2	Specify the second line of the address of the delivery location.
Address Line 3	Specify the third line of the address of the delivery location.
Address Line 4	Specify the fourth line of the address of delivery location.
Country	Click the search icon and select the country of the delivery location.
Postal Code	Specify the postal code of the location.
Primary Phone Number	Specify the primary phone number of the delivery contact person.
Secondary Phone Number	Specify the secondary phone number of the delivery contact person.
Primary Email Address	Specify the primary email address for the delivery location.
Secondary Email Address	Specify the secondary email address for the delivery location.
Fax No.	Specify the fax number of the delivery location, if any.
Delivery Time Slot	Specify the time slot in HH:MM:SS format within which delivery should be done; where, HH stands for hours, MM stands for minutes, and SS stands for seconds.
Frequency	Select the value to specify how frequently delivery should be done. This field is mandatory only for 'Scheduled' type of delivery.
Day of the Week	Select the day(s) on which the delivery should be done. This field is not applicable for 'Daily' frequency.

28. Perform the following actions in the **Delivery Point Creation** screen:

- Click **Add/Edit** to add the record to the grid or modify a selected record.
- Under the **Actions** column, click the Kabab  icon and then click **Edit** or **Delete** to edit or remove the record respectively.
- Click **Reset** to clear the selected values.

29. Click **Back** to move to the previous screen.
30. Click **Save and Close** to save the record and close the window.
The record is sent for authorization.
31. Click **Cancel** to close the window without saving data.

3.4.2 View Corporate Enrichment

This topic describes the systematic instruction to view, modify, delete, or authorize corporate enrichment details.

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

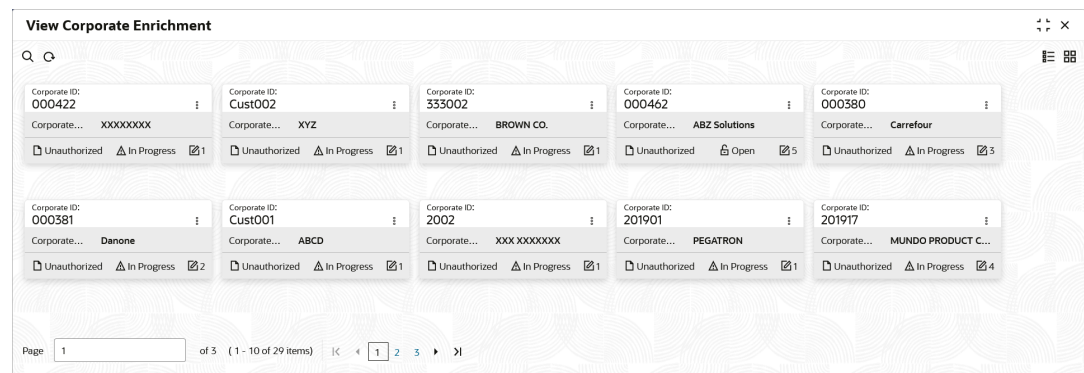

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Corporate Enrichment**.
3. Under **Corporate Enrichment**, click **View Corporate Enrichment**.

The **View Corporate Enrichment** screen displays.

Figure 3-18 View Corporate Enrichment

4. Filter the records in the **View** screen:
 - a. Click **Search** icon to view the filters. The user can filter the records by Corporate Name, Corporate ID, Authorization Status, and Record Status.
 - b. Select the required filter criteria and click **Search** to filter the records.
 - c. Click **Reset** to reset the filter criteria.
5. Click **Refresh** icon to refresh the records.
6. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.

- b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.
 - Optional: Click **View** to view the record details.
 - Select the record and click **Approve** to approve the record.
 - Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
- c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
- d. **Copy** – To copy the record parameters for creating a new record.
- e. **View** – To view the record details.
- f. **Reopen** – To reopen the closed record.

3.5 Charges Maintenance

This topic describes the information to setup the reference data to maintain the charges in Cash Management system.

Banks can levy charges on services extended to corporates with respect to managing and financing receivables and payables, like documentation charges, handling charges and so on. These charges can be configured at default/global level for specific products or parties. The levying of the charges can be triggered by specific events such as auto-debit, EOD, etc. Once configured, the charges would get levied for manual as well as auto processing mode for transactions.

Charge pricing is determined by configuring various pricing methods such as fixed amount, fixed percentage, slab based pricing, count based pricing and so on. The frequency of calculation and collection, such as, daily/weekly/monthly/yearly, can also be defined for a charge.

Banks are also empowered to configure flexible and preferential pricing as per corporate risk profile and assessment.

This topic contains the following subtopics:

- [Charge Code](#)
This topic describes the information to setup the reference data for charge codes in Cash Management system.
- [Charge Rule Maintenance](#)
This topic describes the information to setup the rules for charge pricing/charge calculation, based on the bank's requirements in Cash Management system.
- [Charge Decisioning](#)
This topic describes the information to map the charge rule template and charge code to a specific products.
- [Charge Preferential Pricing](#)
This topic describes the information to configure the special pricing or charge application for a specific corporate.

3.5.1 Charge Code

This topic describes the information to setup the reference data for charge codes in Cash Management system.

- [Create Charge Code](#)
This topic describes the systematic instruction to manage the charge code.
- [View Charge Code](#)
This topic describes the systematic instruction to view, modify, delete, or authorize the charge codes that have been created.

3.5.1.1 Create Charge Code

This topic describes the systematic instruction to manage the charge code.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Maintenance**.
2. Under **Maintenance**, click **Charges**. Under **Charges**, click **Charge Code**.
3. Under **Charge Code**, click **Create Charge Code**.

The **Create Charge Code** screen displays.

5. Filter the records in the **View** screen:
 - a. Click **Search** icon to view the filters. The user can filter the records by Charge Code, Charge Description, Charge Group, Charge Category, Authorization Status, and Record Status.
 - b. Select the required filter criteria and click **Search** to filter the records.
 - c. Click **Reset** to reset the filter criteria.
6. Click **Refresh** icon to refresh the records.
7. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.
 - b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.
 - Optional: Click **View** to view the record details.
 - Select the record and click **Approve** to approve the record.
 - Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
 - c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
 - d. **Copy** – To copy the record parameters for creating a new record.
 - e. **View** – To view the record details.
 - f. **Reopen** – To reopen the closed record.

3.5.2 Charge Rule Maintenance

This topic describes the information to setup the rules for charge pricing/charge calculation, based on the bank's requirements in Cash Management system.

- [Create Charge Rule Maintenance](#)
This topic describes the systematic instruction to define rules for charge pricing/charge calculation based on the bank's requirements.

- [View Charge Rule Maintenance](#)
This topic describes the systematic instruction to view, modify, delete, or authorize the charge rules that have been created.

3.5.2.1 Create Charge Rule Maintenance

This topic describes the systematic instruction to define rules for charge pricing/charge calculation based on the bank's requirements.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Maintenance**.
2. Under **Maintenance**, click **Charges**. Under **Charges**, click **Charge Rule Maintenance**.
3. Under **Charge Rule Maintenance**, click **Create Charge Rule Maintenance**.

The **Create Charge Rule Maintenance** screen displays.

Figure 3-21 Create Charge Rule Maintenance

4. Specify the fields on **Create Charge Rule Maintenance** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-13 Create Charge Rule Maintenance - Field Description

Field	Description
Charge Pricing Description	Specify the pricing description of charge.
Annum Basis	Select the number of days to be considered in a year for tenor-based calculations.

Table 3-13 (Cont.) Create Charge Rule Maintenance - Field Description

Field	Description
Pricing Category	Select the pricing category. Based on the selected category, pricing methods will be loaded.
Pricing Method	Select the method to configure the charge pricing.
Pricing Currency	Select the currency in which pricing is to be done.
Charge in Txn Currency	Switch the toggle ON if the charge should be levied in transaction currency otherwise charge will get levied in pricing currency.
Min/Max Validation Criteria	Specify whether the charges should be applied based on the range of amount or percentage.
Min. Charge Amount/Percent	Specify the minimum charge amount/ percentage to be considered. This field is displayed based on the value selected in the Min/Max Validation Criteria field.
Max. Charge Amount/Percent	Specify the maximum charge amount/ percentage to be considered. This field is displayed based on the value selected in the Min/Max Validation Criteria field.
Fixed Amount	Specify the charge amount. This field is displayed only if Pricing Category is selected as Fixed Amount .
Flat Charge	Switch the toggle ON if the flat charge should be applied. This field is displayed only if Pricing Category is selected as Fixed Percent .
Fixed Percent	Specify the charge percentage. This field is displayed only if Pricing Category is selected as Fixed Percent .
From	Displays the start value of the amount/ percent/ duration range. This field is displayed only if Pricing Category is selected as Tier Based Categories .
To	Specify the end value of the amount/ percent/ duration range. This field is displayed only if Pricing Category is selected as Tier Based Categories .
Amount	Specify the charge amount. This field is displayed only if Pricing Category is selected as Tier Based Amount or Tier Based Mixed .
Units	Specify the number of charge unit. This field is displayed only if Pricing Category is selected as Tier Based Amount and Pricing Method is selected as count-based.
Percent	Specify the charge percentage. This field is displayed only if Pricing Category is selected as Tier Based Percent or Tier Based Mixed .

5. Click **Add** to add the charge rule details to the grid.
 - a. Select the record in the grid and then click  icon in the **Action** column.
 - b. Click **Edit** to edit the selected row.
 - c. Click **Delete** to delete the selected row.
6. Click **Reset** to reset the fields, if required.
7. Click **Save** to save the record and send it for authorization.

3.5.2.2 View Charge Rule Maintenance

This topic describes the systematic instruction to view, modify, delete, or authorize the charge rules that have been created.

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

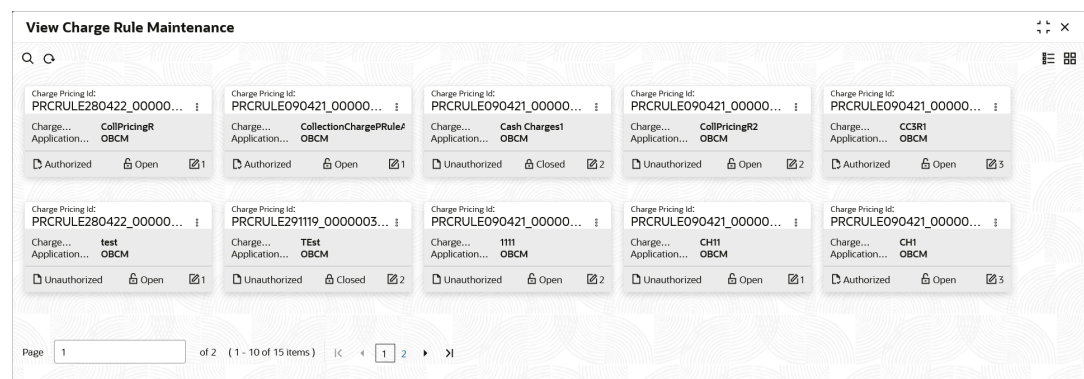

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Maintenance**.
2. Under **Maintenance**, click **Charges**. Under **Charges**, click **Charge Rule Maintenance**.
3. Under **Charge Rule Maintenance**, click **View Charge Rule Maintenance**.

The **View Charge Rule Maintenance** screen displays.

Figure 3-22 View Charge Rule Maintenance

4. Filter the records in the **View** screen:
 - a. Click **Search** icon to view the filters. The user can filter the records by Charge Pricing Id, Charge Description, Authorization Status and Record Status.
 - b. Select the required filter criteria and click **Search** to filter the records.
 - c. Click **Reset** to reset the filter criteria.
5. Click **Refresh** icon to refresh the records.
6. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.
 - b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.
 - Optional: Click **View** to view the record details.
 - Select the record and click **Approve** to approve the record.

- Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
- c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
- d. **Copy** – To copy the record parameters for creating a new record.
- e. **View** – To view the record details.
- f. **Reopen** – To reopen the closed record.

3.5.3 Charge Decisioning

This topic describes the information to map the charge rule template and charge code to a specific products.

- [Create Charge Decisioning](#)
This topic describes the systematic instruction to map the charge rule and charge code to a specific product for instrument collections (both cash and cheques).
- [View Charge Decisioning](#)
This topic describes the systematic instruction to view, modify, delete, or authorize charge decisioning records that have been created.

3.5.3.1 Create Charge Decisioning

This topic describes the systematic instruction to map the charge rule and charge code to a specific product for instrument collections (both cash and cheques).

The charge party (buyer/supplier/insurance company) can also be defined. The calculation and collection frequencies for the charge can be defined as well.

Charges are not levied for instruments that are returned due to technical reasons on the bank's end. Such instruments are not charged for re-lodging either.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Maintenance**.
2. Under **Maintenance**, click **Charges**. Under **Charges**, click **Charge Decisioning**.
3. Under **Charge Decisioning**, click **Create Charge Decisioning**.

The **Create Charge Decisioning** screen displays.

Figure 3-23 Create Charge Decisioning

4. Specify the fields on **Create Charge Decisioning** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-14 Create Charge Decisioning - Field Description

Field Name	Description
Event	Select the event on the occurrence of which, the charge should be applied.

Charges Grid	Displays the details of the preferential pricing added as an entry in this grid.

5. Click **Add** to add the details to the grid.
 - a. Click  icon in the **Action** column to edit or delete the row.
 - b. Click  icon to add other columns to the grid.
6. Click **Reset** to reset the rows in the grid.
7. Click **Save** to save the record and send it for authorization.

3.5.4.2 View Charge Preferential Pricing

This topic describes the systematic instruction to view, modify, delete, or authorize charge preferential pricing records that have been created.

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

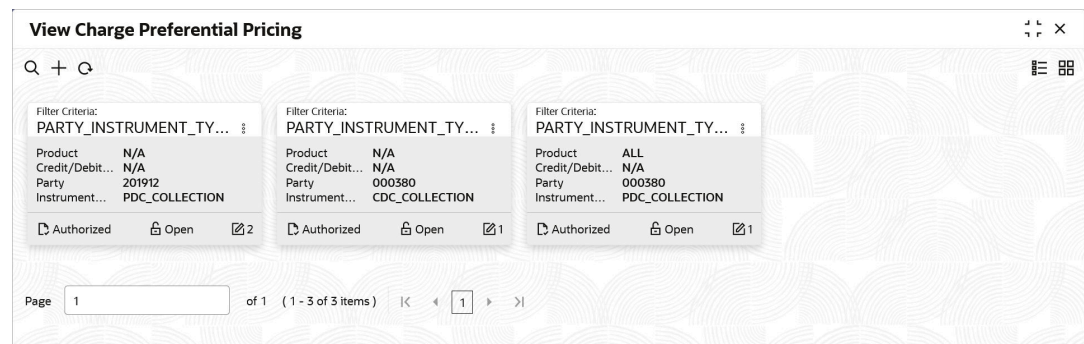

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Maintenance**.
2. Under **Maintenance**, click **Charges**. Under **Charges**, click **Charge Preferential Pricing**.
3. Under **Charge Preferential Pricing**, click **View Charge Preferential Pricing**.

The **View Charge Preferential Pricing** screen displays.

Figure 3-27 View Charge Preferential Pricing

4. Filter the records in the **View** screen:
 - a. Click **Search** icon to view the filters. The user can filter the records by Product, Credit/Debit Status, Party, Instrument Type, Instrument Status, Authorization Status and Record Status.
 - b. Select the required filter criteria and click **Search** to filter the records.
 - c. Click **Reset** to reset the filter criteria.
5. Click **Refresh** icon to refresh the records.
6. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.

- b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.
 - Optional: Click **View** to view the record details.
 - Select the record and click **Approve** to approve the record.
 - Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
- c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
- d. **Copy** – To copy the record parameters for creating a new record.
- e. **View** – To view the record details.
- f. **Reopen** – To reopen the closed record.

3.6 Cash Denomination Maintenance

This topic describes the information to setup the reference data to maintain the denominations for cash transactions of various currencies in Cash Management system.

Denomination is a proper description of a currency amount, usually for coins or banknotes; it is a unit of value given to physical currencies like coins and notes. Denomination detail differ currency to currency. The bank user can maintain the denomination value for each currency that bank deals with for cash collection/withdrawal.

This topic contains the following subtopics:

- [Create Cash Denomination](#)
This topic describes the systematic instruction to create a master maintenance of cash denominations that the bank deals with for cash collection/withdrawal.
- [View Cash Denomination](#)
This topic describes the systematic instruction to view, modify, delete, or authorize cash denomination details.

3.6.1 Create Cash Denomination

This topic describes the systematic instruction to create a master maintenance of cash denominations that the bank deals with for cash collection/withdrawal.

The user can maintain denominations per currency / per unit. Newly created currency denominations take effect once authorized.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Cash Denomination**.
3. Under **Cash Denomination**, click **Create Cash Denomination**.

The **Create Cash Denomination** screen displays.

Figure 3-28 Create Cash Denomination

4. Specify the fields on **Create Cash Denomination** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-16 Create Cash Denomination - Field Description

Field	Description
Branch	Select the branch to create the cash denominations for. Changing the branch requires access rights for the selected branch.
Currency	Select the currency code to maintain denominations for.
Main Unit	Specify the name of the main unit in which the currency denominations are measured. For example: Dollar, Rupee, Pound, and so on.
Sub Unit	Specify the name of the sub unit of the currency. For example: Cent, Paisa, Penny, and so on.

5. Click **Add** icon to add a new row for a denomination.
 - a. From the **Denomination Type** list, select whether the denomination is a coin or a note.
 - b. In the **Denomination Value** field, specify the market value of the coin or the note.
 - c. In the **Description** field, specify more details about the denomination.
6. Under the **Action** column, click **Edit** icon to edit the existing row.
7. Under the **Action** column, Click **Delete** icon to delete the existing row.
8. Click **Save** to save the record and send it for authorization.

3.6.2 View Cash Denomination

This topic describes the systematic instruction to view, modify, delete, or authorize cash denomination details.

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

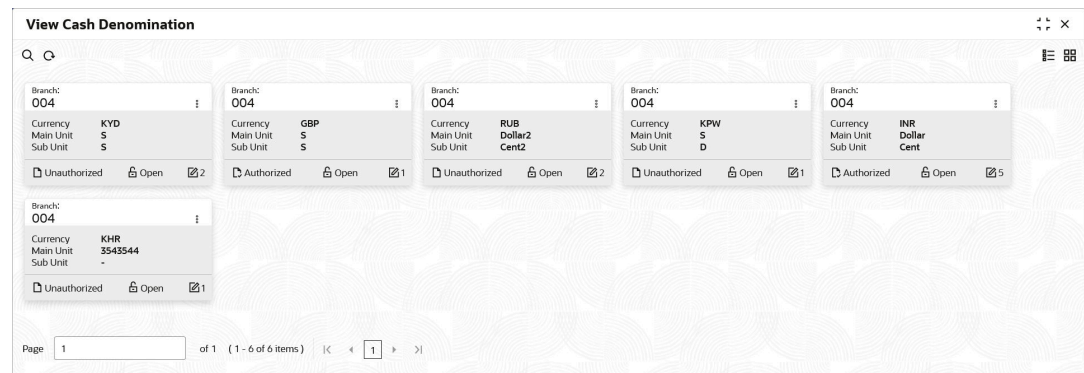

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Cash Denomination**.
3. Under **Cash Denomination**, click **View Cash Denomination**.

The **View Cash Denomination** screen displays.

Figure 3-29 View Cash Denomination

4. Filter the records in the **View** screen:
 - a. Click **Search** icon to view the filters. The user can filter the records by Branch, Currency, Authorization Status, and Record Status.
 - b. Select the required filter criteria and click **Search** to filter the records.
 - c. Click **Reset** to reset the filter criteria.
5. Click **Refresh** icon to refresh the records.
6. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.
 - b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.
 - Optional: Click **View** to view the record details.
 - Select the record and click **Approve** to approve the record.
 - Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.

- c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
- d. **Copy** – To copy the record parameters for creating a new record.
- e. **View** – To view the record details.
- f. **Reopen** – To reopen the closed record.

3.7 Courier Setup Maintenance

This topic describes the information to setup the reference data to maintain the courier company's details in Cash Management system.

The **Courier Setup** is used to register the courier companies with whom the bank has a tie up for cheque pickup services. These courier companies are used for mapping in various other screens including transaction capturing and corporate enrichment.

This topic contains the following subtopics:

- [Create Courier Setup](#)
This topic describes the systematic instruction to create a courier code and capture the complete detail of the courier company.
- [View Courier Setup](#)
This topic describes the systematic instruction to view, modify, delete, or authorize courier code details.

3.7.1 Create Courier Setup

This topic describes the systematic instruction to create a courier code and capture the complete detail of the courier company.

Newly created courier codes take effect once authorized and cannot be modified thereafter.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Courier Setup**.
3. Under **Courier Setup**, click **Create Courier Setup**.

The **Create Courier Setup** screen displays.

Figure 3-30 Create Courier Setup

4. Specify the fields on **Create Courier Setup** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-17 Create Courier Setup - Field Description

Field	Description
Courier Code	Specify a unique alphanumeric code to be created for a courier company. This field cannot be modified once authorized.
Courier Description	Specify the name and description of the courier company.
Contact Person	Specify the name of the contact person from the courier company.
Designation	Specify the designation of the contact person from the courier company.
Address Line 1	Specify the first line of the courier company's address.
Address Line 2	Specify the second line of the courier company's address.
Address Line 3	Specify the third line of the courier company's address.
Address Line 4	Specify the fourth line of the courier company's address.
Country	Click the search icon to select the country.
Zip Code	Specify the postal code of the address.
Land Line Number	Specify the land line contact number of the courier company.
Fax	Specify the fax contact number of the courier company.
Email Address	Specify an official email address of the courier company. Click the Add (+) icon to add more email addresses. You can delete an email address by clicking the Remove (-) icon given for it.
Mobile Number	Specify the mobile number of the selected contact person. Click the Add (+) icon to add more mobile numbers. You can delete a number by clicking the Remove (-) icon given for it.
Contract Start Date	Click the calendar icon to select the date from when the contract with the courier company starts.

Table 3-17 (Cont.) Create Courier Setup - Field Description

Field	Description
Contract End Date	Click the calendar icon to select the date on which contract with courier company expires.

5. Click **Save** to save the record and send it for authorization.

3.7.2 View Courier Setup

This topic describes the systematic instruction to view, modify, delete, or authorize courier code details.

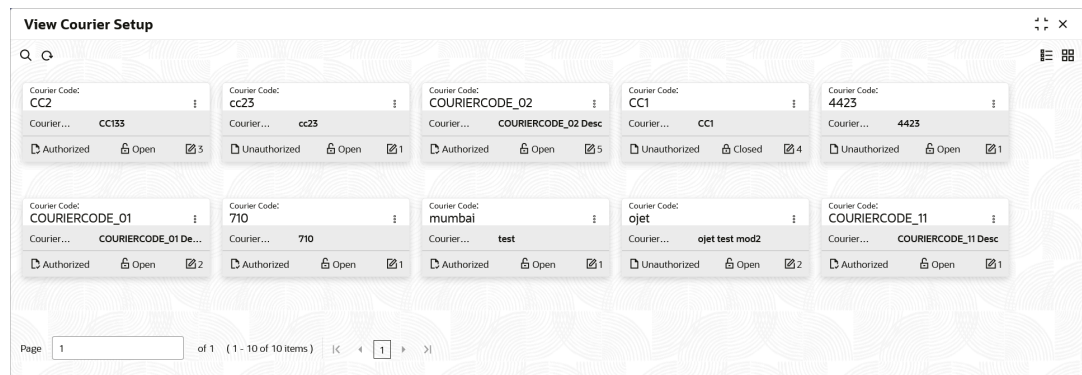

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Courier Setup**.
3. Under **Courier Setup**, click **View Courier Setup**.

The **View Courier Setup** screen displays.

Figure 3-31 View Courier Setup

4. Filter the records in the **View** screen:
 - a. Click **Search** icon to view the filters. The user can filter the records by Courier Code, Courier Description, Authorization Status and Record Status.
 - b. Select the required filter criteria and click **Search** to filter the records.
 - c. Click **Reset** to reset the filter criteria.
5. Click **Refresh** icon to refresh the records.
6. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.

- b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.
 - Optional: Click **View** to view the record details.
 - Select the record and click **Approve** to approve the record.
 - Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
- c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
- d. **Copy** – To copy the record parameters for creating a new record.
- e. **View** – To view the record details.
- f. **Reopen** – To reopen the closed record.

3.8 Location Maintenance

This topic describes the information to setup the reference data to maintain the various parameters for a specific location in Cash Management system.

The bank user can define various clearing parameters for a specific location, based on all locations where banks intends to offer Cash Management services. The user can also link Correspondent bank to those locations where the bank has a correspondent-banking tie up, or can link an outside network banks to locations where bank does not have a branch as well as no correspondent banking arrangement.

For a specific location code, the user can define clearing parameters like location cluster, high value cut-off amount as well as supported clearing networks like HOME, MICR (Magnetic Ink Character Recognition), NON-MICR (Non-Magnetic Ink Character Recognition), ICCS (Image Cheque Clearing System).

This topic contains the following subtopics:

- [Create Location](#)
This topic describes the systematic instruction to map the locations with the location cluster, clearing network, and link the own branch, correspondent bank and outside network bank for clearing tie-up.
- [View Location](#)
This topic describes the systematic instruction to view, modify, delete, or authorize location details.

3.8.1 Create Location

This topic describes the systematic instruction to map the locations with the location cluster, clearing network, and link the own branch, correspondent bank and outside network bank for clearing tie-up.

Newly created location codes take effect once authorized and cannot be modified thereafter.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Location**.
3. Under **Location**, click **Create Location**.

The **Create Location** screen displays.

Figure 3-32 Create Location

4. Specify the fields on **Create Location** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-18 Create Location - Field Description

Field	Description
Location Code	Specify the unique code for the location.
Location Description	Specify the brief description for the specified location.
State/Province Code	Specify the unique state/province code of the specified location.
Country Code	Click the Search icon to view and select the country code of the specified location.
Location Cluster	Click the Search icon to view and select the location cluster to be mapped with the location.
Clearing Network	Select any of the following clearing networks in which the location can participate for cheque clearing: <ul style="list-style-type: none"> MICR – Magnetic Ink Character Recognition NON MICR – Non - Magnetic Ink Character Recognition ICCS – Image Cheque Clearing System HOME – Home Network
Location Network	Select the location network from the drop-down list. The available options are: <ul style="list-style-type: none"> Correspondent Banks Outside Network Banks Own Branches

Based on the **Location Network** selection, the following sections displays.

Correspondent Banks:

Location where bank does not have any branch, however intend to offer CMS services by having an arrangement with other bank are maintained under 'Correspondent Banks' tab.

In the location maintenance, the user can map the Correspondent bank and its controlling branch with priority.

If the **Location Network** field is selected as **Correspondent Banks**, the system displays the extended section to add the correspondent bank details.
The **Create Location - Correspondent Banks** screen displays.

Figure 3-33 Create Location - Correspondent Banks

- Specify the fields on **Create Location - Correspondent Banks** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-19 Correspondent Banks - Field Description

Field	Description
Bank	Click the Search icon to view and select the correspondent bank code to map with the location.
Bank Priority	Specify the priority of the correspondent bank for cheque collection and clearing at the mapped location. Two or more correspondent banks linked to the same location cannot have the same priority.
Branch	Click the Search icon to view and select a controlling branch for the correspondent bank for processing the cheques.

Outside Network Banks:

System bank can have tie-up with few outside network banks for cheque clearance for the location where the system bank neither have any branch nor have an arrangement or tieup with the correspondent bank.

In location maintenance, you can map the outside network bank and its controlling branch with priority.

If the **Location Network** field is selected as **Outside Network Banks**, the system displays the extended section to add the Outside Network bank details.

The **Create Location - Outside Network Banks** screen displays.

Figure 3-34 Create Location - Outside Network Banks

- Specify the fields on **Create Location - Outside Network Banks** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-20 Outside Network Banks - Field Description

Field	Description
Bank	Click the Search icon to view and select the bank code to map with the location.
Bank Priority	Specify the priority of the outside network bank for cheque collection and clearing at the mapped location. Two or more outside network banks linked to the same location cannot have the same priority.
Branch	Click the Search icon to view and select a controlling branch of the outside network bank for processing the cheques.

Own Branches:

Location where the bank has their own branch, where the cheque can be sent for clearance locally. In Location maintenance, the user can map the own controlling branches with priority and routing number.

If the **Location Network** field is selected as **Own Branches**, the system displays the extended section to add the Own bank details.

The **Create Location - Own Branches** screen displays.

8. Click **Add/Edit** to add the record to the grid or modify a selected record.
9. Click the Kabab (⋮) icon under the **Action** column and then click **Edit** to modify records in the grid.
10. Click the Kabab (⋮) icon under the **Action** column and then click **Delete** to delete the records in the grid.
11. Click **Reset** to clear the selected values.
12. Click **Save** to save the record and send it for authorization.

3.8.2 View Location

This topic describes the systematic instruction to view, modify, delete, or authorize location details.

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

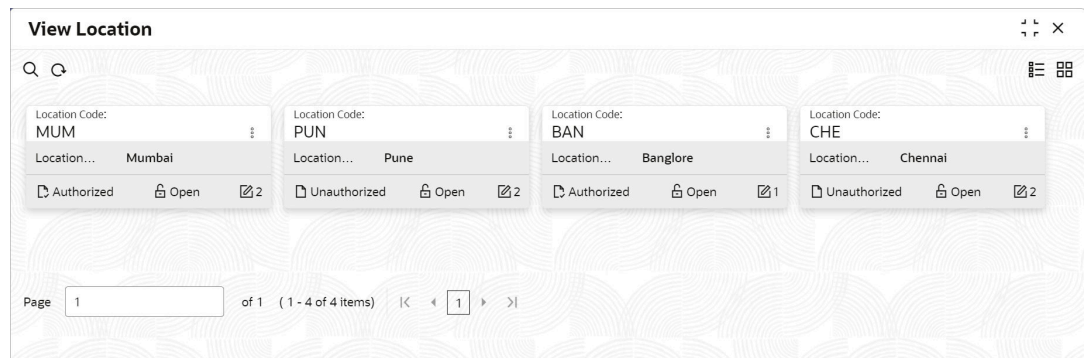

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Location**.
3. Under **Location**, click **View Location**.

The **View Location** screen displays.

Figure 3-36 View Location

4. Filter the records in the **View** screen:
 - a. Click **Search** icon to view the filters. The user can filter the records by Location Code, Location Description, Location Cluster, Correspondent Banks, Outside Network Banks, Authorization Status, and Record Status.
 - b. Select the required filter criteria and click **Search** to filter the records.
 - c. Click **Reset** to reset the filter criteria.
5. Click **Refresh** icon to refresh the records.
6. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.
 - b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.
 - Optional: Click **View** to view the record details.
 - Select the record and click **Approve** to approve the record.
 - Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
 - c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
 - d. **Copy** – To copy the record parameters for creating a new record.
 - e. **View** – To view the record details.

- f. **Reopen** – To reopen the closed record.

3.9 Location Cluster Maintenance

This topic describes the information to setup the reference data to maintain the location cluster in Cash Management system.

The location cluster is a group of locations which belongs to a same clearing grid. The location is mapped with a cluster to identify in which clearing network the location falls and accordingly derives the product.

This topic contains the following subtopics:

- [Create Location Cluster](#)
This topic describes the systematic instruction to create a location cluster.
- [View Location Cluster](#)
This topic describes the systematic instruction to view, modify, delete, or authorize location cluster code details.

3.9.1 Create Location Cluster

This topic describes the systematic instruction to create a location cluster.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Location Cluster**.
3. Under **Location Cluster**, click **Create Location Cluster**.

The **Create Location Cluster** screen displays.

Figure 3-37 Create Location Cluster

The screenshot shows the 'Create Location Cluster' interface. It features three input fields at the top: 'Location Cluster Code', 'Location Cluster Description', and 'Clearing Days'. Each field is marked as 'Required'. The background of the main content area is a light gray with a repeating geometric pattern. At the bottom right, there are 'Cancel' and 'Save' buttons. The top right corner includes an 'Errors & Overrides' icon and window control buttons.

4. Specify the fields on **Create Location Cluster** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-22 Create Location Cluster - Field Description

Field	Description
Location Cluster Code	Specify a unique alphanumeric code for the cluster being created. <div> <i>Note</i> This field cannot be modified once authorized. </div>
Location Cluster Description	Specify a name and description for the cluster code.
Clearing Days	Specify the number of days in which instruments will be cleared for the location cluster.

- Click **Save** to save the record and send it for authorization.

3.9.2 View Location Cluster

This topic describes the systematic instruction to view, modify, delete, or authorize location cluster code details.

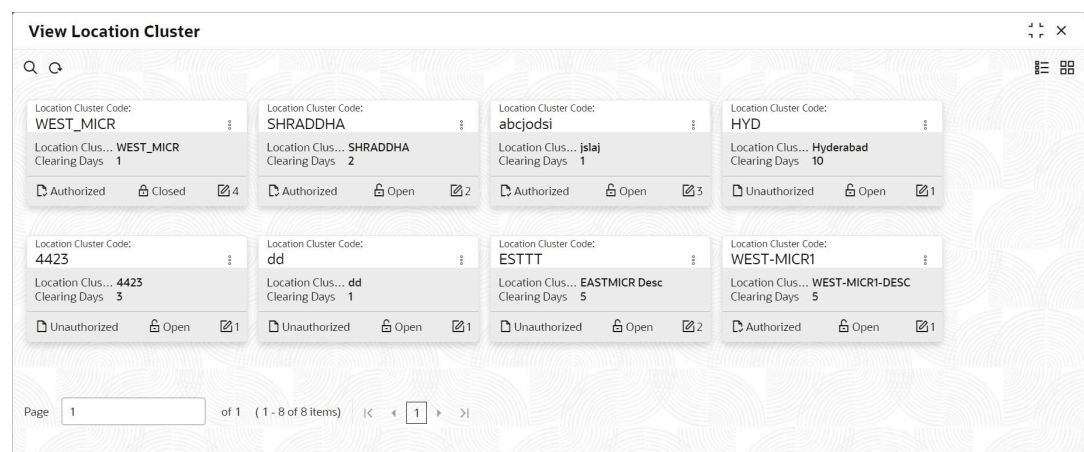

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

- On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
- Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Location Cluster**.
- Under **Location Cluster**, click **View Location Cluster**.

The **View Location Cluster** screen displays.

Figure 3-38 View Location Cluster

4. Filter the records in the **View** screen:
 - a. Click **Search** icon to view the filters. The user can filter the records by Location Cluster Code, Location Cluster Description, Authorization Status, and Record Status.
 - b. Select the required filter criteria and click **Search** to filter the records.
 - c. Click **Reset** to reset the filter criteria.
5. Click **Refresh** icon to refresh the records.
6. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.
 - b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.
 - Optional: Click **View** to view the record details.
 - Select the record and click **Approve** to approve the record.
 - Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
 - c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
 - d. **Copy** – To copy the record parameters for creating a new record.
 - e. **View** – To view the record details.
 - f. **Reopen** – To reopen the closed record.

3.10 Non System Bank Master

This topic describes the information to setup the reference data for non-system bank details in Cash Management system.

Non System Bank Master feature helps to maintain the bank details with the routing number for the external banks. Using this feature, the bank can lodge a cheque for clearing outside the system bank.

- [Create Non System Bank Master](#)
This topic describes the systematic instruction to create a master list for the external banks with the bank, address and SWIFT/BIC code details.
- [View Non System Bank Master](#)
This topic describes the systematic instruction to view, modify, delete, or authorize the non-system bank master records that have been created.

3.10.1 Create Non System Bank Master

This topic describes the systematic instruction to create a master list for the external banks with the bank, address and SWIFT/BIC code details.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Non System Bank Master**.

- Under **Non System Bank Master**, click **Create Non System Bank Master**.
The **Create Non System Bank Master** screen displays.

- Specify the fields on **Create Non System Bank Master** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-23 Create Non System Bank Master - Field Description

Field	Description
Bank Details	Specify the details of the external bank in the following fields.
Bank Code	Specify a unique code for the external bank.
Bank Name	Specify the name of the external bank.
Routing Number	Specify the unique routing number for the external bank.
Address Details	Specify the address details of the external bank in the following fields.
Bank Address 1	Specify the address line 1 of the external bank.
Bank Address 2	Specify the address line 2 of the external bank.
Bank Address 3	Specify the address line 3 of the external bank.
Bank Address 4	Specify the address line 4 of the external bank.
Country Code	Specify the country code of the external bank.
SWIFT/BIC Code	Select the SWIFT/BIC codes of the external bank in the following table grid.
SWIFT Address	Click the search icon to view and select the applicable SWIFT address from the list.
Default BIC	Specify the default BIC code for the selected SWIFT address.

- Perform the following actions in the **SWIFT/BIC Code** table grid.

- a. Click **Add** icon to add the new row to the grid.
- b. Click **Delete** icon to delete the selected row.
6. Click **Save** to save the record and send it for authorization.

3.10.2 View Non System Bank Master

This topic describes the systematic instruction to view, modify, delete, or authorize the non-system bank master records that have been created.

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Non System Bank Master**.
3. Under **Non System Bank Master**, click **View Non System Bank Master**.

The **View Non System Bank Master** screen displays.

Figure 3-40 View Non System Bank Master

4. Filter the records in the **View** screen:
 - a. Click **Search** icon to view the filters. The user can filter the records by Bank Code, Bank Name, Record Status and Authorization Status.
 - b. Select the required filter criteria and click **Search** to filter the records.
 - c. Click **Reset** to reset the filter criteria.
5. Click **Refresh** icon to refresh the records.
6. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.
 - b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.

- Optional: Click **View** to view the record details.
- Select the record and click **Approve** to approve the record.
- Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
- c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
- d. **Copy** – To copy the record parameters for creating a new record.
- e. **View** – To view the record details.
- f. **Reopen** – To reopen the closed record.

3.11 Non System Bank Branch Master

This topic describes the information to setup the reference data for the branch details of the non-system banks in Cash Management system.

Non System Bank Branch Master feature helps to maintain the branch details for the external banks.

- [Create Non System Bank Branch Master](#)
This topic describes the systematic instruction to create a master list for the branches of the external banks.
- [View Non System Bank Branch Master](#)
This topic describes the systematic instruction to view, modify, delete, or authorize the non-system bank branch master records that have been created.

3.11.1 Create Non System Bank Branch Master

This topic describes the systematic instruction to create a master list for the branches of the external banks.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Non System Bank Branch Master**.
3. Under **Non System Bank Branch Master**, click **Create Non System Bank Branch Master**.

The **Create Non System Bank Branch Master** screen displays.

- Specify the fields on **Create Non System Bank Branch Master** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-24 Create Non System Bank Branch Master - Field Description

Field	Description
Branch Details	Specify the branch details of the external bank in the following fields.
Branch Code	Specify a unique code for the branch of the external bank.
Branch Name	Specify the name of the specified branch.
Local Currency	Click the search icon to view and select the currency used in the specified branch.
Source System	Click the search icon to view and select the source system in which the branch has been maintained.
Bank	Click the search icon to view and select the external bank in which the branch has to be created.
Branch Type	Select the type of branch. The available options are: <ul style="list-style-type: none"> CMS Branch Non CMS Branch Service Branch
Address Details	Specify the address details of the external bank in the following fields.
Branch Address 1	Specify the address line 1 of the external branch.
Branch Address 2	Specify the address line 2 of the external branch.

Table 3-24 (Cont.) Create Non System Bank Branch Master - Field Description

Field	Description
Country Code	Click the search icon to view and select the country code where the branch is located.
Location Code	Click the search icon to view and select the location code from the list.
Other Details	Specify the other details of the external bank in the following fields.
Host Code	Click the search icon to view and select the host code from the list.
Branch Internal Code	Specify the branch internal code.
CTS	Select the toggle to enable the CTS for the branch.
Routing Number	Specify the routing number of the branch.
Weekly Holiday 1	Select the first day of the week when the branch has a holiday.
Weekly Holiday 2	Select the second day of the week when the branch has a holiday.
Semi Day	Select the day of the week when the branch works half day.
SWIFT/BIC Code	Select the SWIFT/BIC codes of the external bank in the following table grid.
SWIFT Address	Click the search icon to view and select the applicable SWIFT address from the list.
Default BIC	Specify the default BIC code for the selected SWIFT address.

5. Click **Add/Edit** to add the details to the grid.
 - Click  icon in the **Action** column to edit or delete the row.
6. Click **Reset** to clear the selected values, if required.
7. Click **Save** to save the record and send it for authorization.

3.11.2 View Non System Bank Branch Master

This topic describes the systematic instruction to view, modify, delete, or authorize the non-system bank branch master records that have been created.

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Non System Bank Branch Master**.
3. Under **Non System Bank Branch Master**, click **View Non System Bank Branch Master**.

The **View Non System Bank Branch Master** screen displays.

3.12 PDC Vault Box Maintenance

This topic describes the information to setup the reference data to create/maintain vault boxes that can be used for storing the PDC instruments in Cash Management system.

As part of the collection services, the corporates sometimes handover the postdated instruments to the bank. It is bank's need to safely keep the instruments in a secured vault box till the instrument is due for presentation, clearing, withdrawal etc. This screen allows the user to create/maintain vault boxes that can be used for storing the PDC instruments. User can also parameterize options, maximum number of instruments to be allocated to a vault box, etc.

This topic contains the following subtopics:

- [Create Vault Maintenance](#)
This topic describes the systematic instruction to create vault box for warehousing the PDC instrument on the basis of the Presentation Month, Presentation From and To days.
- [View Vault Maintenance](#)
This topic describes the systematic instruction to view, modify, delete, or authorize vault box details.

3.12.1 Create Vault Maintenance

This topic describes the systematic instruction to create vault box for warehousing the PDC instrument on the basis of the Presentation Month, Presentation From and To days.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **PDC Vault Maintenance**.
3. Under **PDC Vault Maintenance**, click **Create Vault Maintenance**.

The **Create Vault Maintenance** screen displays.

Figure 3-43 Create Vault Maintenance

4. Specify the fields on **Create Vault Maintenance** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-25 Create Vault Maintenance - Field Description

Field	Description
Vault Box Number	Specify a unique vault box number. This field represents a unique number allocated to each vault box that will be used for warehousing the post-dated Instruments.

Table 3-25 (Cont.) Create Vault Maintenance - Field Description

Field	Description
Vault Box Description	Specify a description for the vault box.
Vault Branch	Select the branch where the vault box is located. By default, the branch of the logged-in user is selected.
Vault Location	Displays the location of the vault box based on the selected branch.
Vault Activation Date	Click the calendar icon to select the date from which the vault will be operational.
Vault Expiry Date	Click the calendar icon to select the date after which the vault will not be operational. Leaving this field blank keeps the vault operational till the time it is manually deactivated. The expiry date should be equal to or greater than the activation date.
Number Of Instrument	Specify the maximum number of instruments that can be stored in the vault.
Presentation Month	Select the month for which the post-dated instrument is due for presentation.
Presentation From Day	Specify a number to specify the first presentation date for the vault. Instruments are stored in order of their presentation dates. The specified number should be between first and last date of the respective month. The Presentation From Day cannot be greater than the Presentation To Day .
Presentation To Day	Specify the number to specify the last presentation date for the vault. Instruments are stores in order of their presentation dates. Formula: First Presentation Date =< Presentation To Day <= last date of the respective month. The Presentation To Day cannot be less than the Presentation From Day .

5. Click **Save** to save the record and send it for authorization.

3.12.2 View Vault Maintenance

This topic describes the systematic instruction to view, modify, delete, or authorize vault box details.

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **PDC Vault Maintenance**.
3. Under **PDC Vault Maintenance**, click **View Vault Maintenance**.

The **View Vault Maintenance** screen displays.

4. Filter the records in the **View** screen:
 - a. Click **Search** icon to view the filters. The user can filter the records by Vault Box Number, Vault Box Description, Vault Branch, Vault Location, Authorization Status, and Record Status.
 - b. Select the required filter criteria and click **Search** to filter the records.
 - c. Click **Reset** to reset the filter criteria.
5. Click **Refresh** icon to refresh the records.
6. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.
 - b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.
 - Optional: Click **View** to view the record details.
 - Select the record and click **Approve** to approve the record.
 - Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
 - c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
 - d. **Copy** – To copy the record parameters for creating a new record.
 - e. **View** – To view the record details.
 - f. **Reopen** – To reopen the closed record.

3.13 Product Definition Maintenance

This topic describes the information to maintain the product definitions in Cash Management system.

The **Product Definition** screen allows to create variants for cheque collection products on the basis of combination of specific parameters like network type (inside network, correspondent bank network etc.), product type (local cheque collection, outstation cheque collection etc.), and configure other features within the relevant boundaries.

This topic contains the following subtopics:

- [Create Product Definition](#)
This topic describes the systematic instruction to create product definitions.
- [View Product Definition](#)
This topic describes the systematic instruction to view, modify, or authorize product details.

3.13.1 Create Product Definition

This topic describes the systematic instruction to create product definitions.

Newly created codes take effect once authorized and cannot be modified thereafter.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Maintenance**. Under **Maintenance**, click **Product Definition**.
3. Under **Product Definition**, click **Create Product Definition**.

The **Create Product Definition** screen displays.

 - d. **Copy** – To copy the record parameters for creating a new record.
 - e. **View** – To view the record details.
 - f. **Reopen** – To reopen the closed record.

3.14 Alerts Maintenance

This topic describes the information to setup the reference data for Alerts such as contact details, definition and decisioning in Cash Management system.

- [Alert Contact Details](#)
This topic describes the information to maintain the phone number and email ID of the contact person for sending alerts for each corporate in Cash Management system.
- [Alert Definition](#)
This topic describes the information to maintain the alert definitions in Cash Management system.
- [Alert Decisioning](#)
This topic describes the information to manage how and when alerts are sent to recipients in Cash Management system.
- [Alert Template Details](#)
This topic describes the information to maintain the email content for each combination of **Template ID** and **Language**, for a corporate in Cash Management system.
- [Alert Template ID](#)
This topic describes the information to create a Template ID for specific events for each corporate in Cash Management system.

3.14.1 Alert Contact Details

This topic describes the information to maintain the phone number and email ID of the contact person for sending alerts for each corporate in Cash Management system.

This topic contains the following subtopics:

- [Create Alert Contact Details](#)
This topic describes the systematic instruction to create contact details for sending alerts to a specific corporate.
- [View Alert Contact Details](#)
This topic describes the systematic instruction to view, modify, or authorize the alert contact details.

3.14.1.1 Create Alert Contact Details

This topic describes the systematic instruction to create contact details for sending alerts to a specific corporate.

Different contact persons can be set to receive different types of alerts. Newly created contact details take effect once authorized.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Alerts**.
2. Under **Alerts**, click **Alert Contact Details**. Under **Alert Contact Details**, click **Create Alert Contact Details**.

The **Create Alert Contact Details** screen displays.

Figure 3-49 Create Alert Contact Details

3. Specify the fields on **Create Alert Contact Details** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-27 Create Alert Contact Details - Field Description

Field	Description
External Party	Select External party to enable Party search field.
Bank Users	Select bank user for maintenance of contact number or email ID for bank users. Note: The Party field will be disabled, if bank users is selected.
Agents	Select agent for maintenance of contact number or email ID for agents. Note: The Party field will be disabled, if agent is selected.
Party	Click the search icon and select the corporate party to create alert contact details. Note: This field will be enabled only on selection of external party option.

4. Click **Search** icon in party field.

The **Party** screen displays. Search and select a customer or non customer for which alert details needs to be created

Figure 3-50 Create Alert Contact Details-Party

5. Click **Add** icon to add a row for a contact that can be External Party, Bank user or Agent.
 - a. Double click in the **Alert Code** column.
Click the **search** icon and select the required alert code to map the contact details for.
 - b. In the **Telephone Number** column, specify the contact person's phone number.
 - c. In the **Email** column, specify the contact person's email ID.
 - d. Click **Add** icon to add contact details for other alert codes and repeat the above steps.
 - e. Click **Edit** icon under the **Action** column to edit the contact details entered.
 - f. Click **Delete** icon under the **Action** column to delete a row.

6. Click **Save** to save the record and send it for authorization.

3.14.1.2 View Alert Contact Details

This topic describes the systematic instruction to view, modify, or authorize the alert contact details.

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

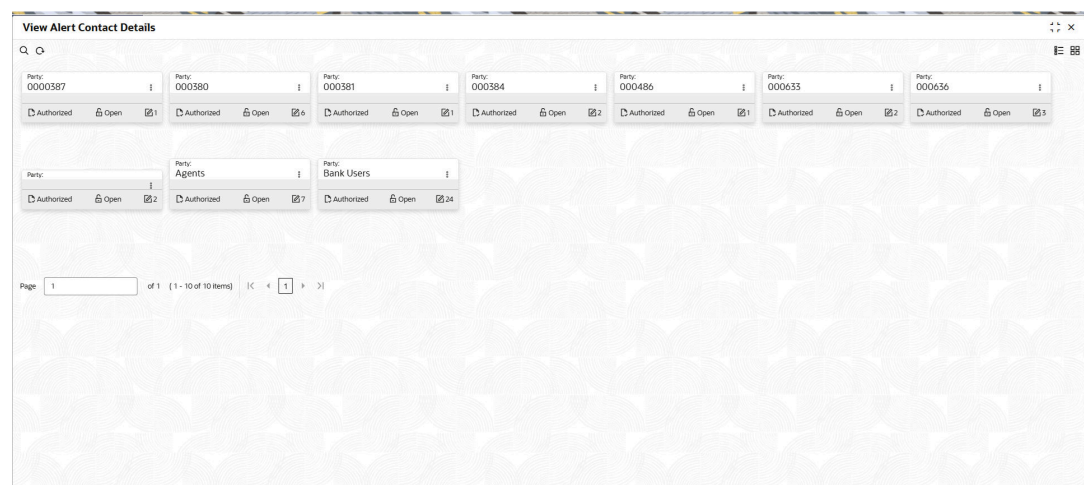

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Alerts**.
2. Under **Alerts**, click **Alert Contact Details**. Under **Alert Contact Details**, click **View Alert Contact Details**.

The **View Alert Contact Details** screen displays.

Figure 3-51 View Alert Contact Details

3. Filter the records in the **View** screen:
 - a. Click **Search** icon to view the filters.
The user can filter the records by Party Id, Authorization Status, and Record Status.
 - b. Select the required filter criteria and click **Search** to filter the records.
 - c. Click **Reset** to reset the filter criteria.
4. Click **Refresh** icon to refresh the records.
5. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.
 - b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.

- Optional: Click **View** to view the record details.
- Select the record and click **Approve** to approve the record.
- Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
- c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
- d. **Copy** – To copy the record parameters for creating a new record.
- e. **View** – To view the record details.
- f. **Reopen** – To reopen the closed record.

3.14.2 Alert Definition

This topic describes the information to maintain the alert definitions in Cash Management system.

The **Alert Definition** functionality can be used to configure and manage the types of alerts. User can define alert categories for various events. These defined alerts can be further used in the **Alert Decisioning** screen to set alerts.

This topic contains the following subtopics:

- [Create Alert Definition](#)
This topic describes the systematic instruction to configure and manage various types of alerts.
- [View Alert Definition](#)
This topic describes the systematic instruction to view, modify, or authorize alert definitions.

3.14.2.1 Create Alert Definition

This topic describes the systematic instruction to configure and manage various types of alerts.

Newly created alert types take effect once authorized and cannot be modified thereafter.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Alerts**.
2. Under **Alerts**, click **Alert Definition**. Under **Alert Definition**, click **Create Alert Definition**.

The **Create Alert Definition** screen displays.

 - a. Click **Search** icon to view the filters.
The user can filter the records by Alert Code, Alert Description, Authorization Status and Record Status.
 - b. Select the required filter criteria and click **Search** to filter the records.
 - c. Click **Reset** to reset the filter criteria.
4. Click **Refresh** icon to refresh the records.
5. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.
 - b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.
 - Optional: Click **View** to view the record details.
 - Select the record and click **Approve** to approve the record.
 - Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
 - c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
 - d. **Copy** – To copy the record parameters for creating a new record.
 - e. **View** – To view the record details.
 - f. **Reopen** – To reopen the closed record.

3.14.3 Alert Decisioning

This topic describes the information to manage how and when alerts are sent to recipients in Cash Management system.

The delivery mode and frequency for sending the alerts can also be defined.

This topic contains the following subtopics:

- [Create Alert Decisioning](#)
This topic describes the systematic instruction to set the delivery mode, frequency of sending alert as well as appropriate template to a recipient.
- [View Alert Decisioning](#)
This topic describes the systematic instruction to view, modify, or authorize alert decisioning record details.

3.14.3.1 Create Alert Decisioning

This topic describes the systematic instruction to set the delivery mode, frequency of sending alert as well as appropriate template to a recipient.

Newly set decisioning records take effect once authorized. The phone number and email ID are obtained from the records maintained in the **Alert Contact Details** screen.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Alerts**.
2. Under **Alerts**, click **Alert Decisioning**. Under **Alert Decisioning**, click **Create Alert Decisioning**.

The **Create Alert Decisioning** screen displays.

Figure 3-54 Create Alert Decisioning

3. Specify the fields on **Create Alert Decisioning** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-29 Create Alert Decisioning - Field Description

Field	Description
Alert Category	Select the category to set the alerts for. The available options are: <ul style="list-style-type: none"> • File Upload • Cash Collection • Cash Withdrawal • Netting
Filter Criteria	Select the criteria to set the alerts for. The available options are: <ul style="list-style-type: none"> • Default • Corporate Based
Corporate	Click the search icon to search and select the appropriate corporate for which the decisioning record is to be created. Field	Description
Recipient	Select the recipient to whom the alert should be sent. The following events are displayed in the drop-down list: <ul style="list-style-type: none"> • Agent • Bank User • Customer
Frequency	Select whether the alert should be sent online when the event occurs or should be scheduled to be sent prior to the occurrence of the event. Note: This field is defaulted and disabled to online.
Delivery Mode	Select the Delivery Mode. The available option is: <ul style="list-style-type: none"> • Email

- Click **Add/Edit** to add alert decision details in the grid or modify a selected records from the grid.
- Perform the following steps to take action on the records in the grid.
 - Select the record in the grid and click **Options** icon under the **Action** column.
 - Click **Edit** to modify records in the grid.
 - Click **Delete** to remove the record.
- Click **Save** to save the record and send it for authorization.

3.14.3.2 View Alert Decisioning

This topic describes the systematic instruction to view, modify, or authorize alert decisioning record details.

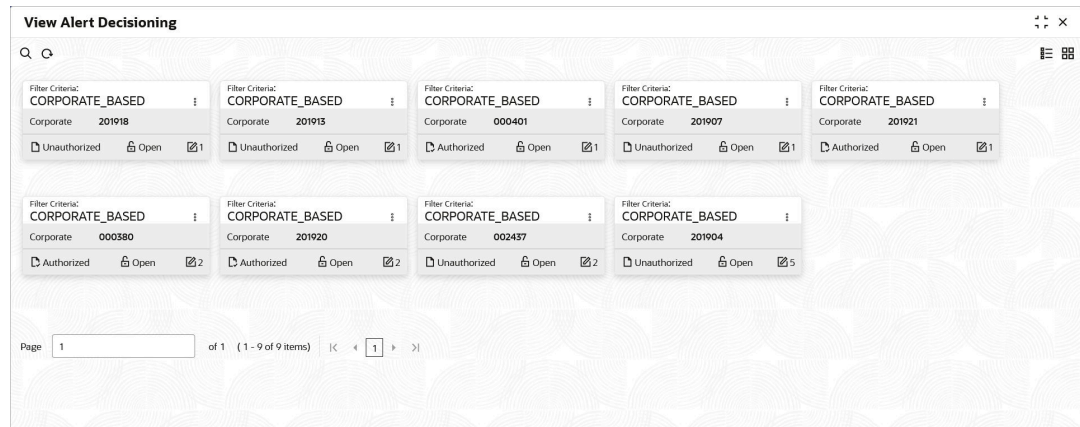

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

- On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Alerts**.
- Under **Alerts**, click **Alert Decisioning**. Under **Alert Decisioning**, click **View Alert Decisioning**.

The **View Alert Decisioning** screen displays.

Figure 3-55 View Alert Decisioning

3. Filter the records in the **View** screen:
 - a. Click **Search** icon to view the filters.
The user can filter the records by Corporate, Authorization Status, Record Status and Category.
 - b. Select the required filter criteria and click **Search** to filter the records.
 - c. Click **Reset** to reset the filter criteria.
4. Click **Refresh** icon to refresh the records.
5. Click **Options** icon and then select any of the following options:
 - a. **Unlock** – To modify the record details. Refer to the **Create** screen for the field level details.
 - b. **Authorize** – To authorize or reject the record. Authorizing/Rejecting requires necessary access rights.
 - Optional: Click **View** to view the record details.
 - Select the record and click **Approve** to approve the record.
 - Select the record and click **Reject** to reject the record. Specify the relevant comments in the pop-up window that appears, and click **Confirm**.
 - c. **Delete/Close** – To remove the record.
 - Optional: In the confirmation pop-up window, click **View** to view the record details.
 - Click **Proceed** to delete the record.
 - d. **Copy** – To copy the record parameters for creating a new record.
 - e. **View** – To view the record details.
 - f. **Reopen** – To reopen the closed record.

3.14.4 Alert Template Details

This topic describes the information to maintain the email content for each combination of **Template ID** and **Language**, for a corporate in Cash Management system.

This topic contains the following subtopics:

- [Create Alert Template Details](#)
This topic describes the systematic instruction to create alert template details for a specific corporate.
- [View Alert Template Details](#)
This topic describes the systematic instruction to view, modify, or authorize the alert template details.

3.14.4.1 Create Alert Template Details

This topic describes the systematic instruction to create alert template details for a specific corporate.

Users can maintain different text for email and SMS based for each combination of **Template ID** and **Language**.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Alerts**.
2. Under **Alerts**, click **Alert Template Details**. Under **Alert Template Details**, click **Create Alert Template Details**.

The **Create Alert Template Details** screen displays.

Figure 3-56 Create Alert Template Details

3. Specify the fields on **Create Alert Template Details** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 3-30 Create Alert Template Details - Field Description

Field	Description
Alert Template ID	Click the search icon and select the specific template ID for which the text needs to be configured.
Alert Template Description	Displays the description of the selected alert template ID.
Language	Click the search icon and select the specific language.
Mode	Select Mode which is default to Email.
Subject	Specify the subject of the email.
Body	Specify the text body of the email to be sent as an alert.
Supported Placeholders	Displays the supported placeholders.
Attachment Template	Click the search icon to select the specific attachment template to be sent.

- Click **Save** to save the record and send it for authorization.

3.14.4.2 View Alert Template Details

This topic describes the systematic instruction to view, modify, or authorize the alert template details.

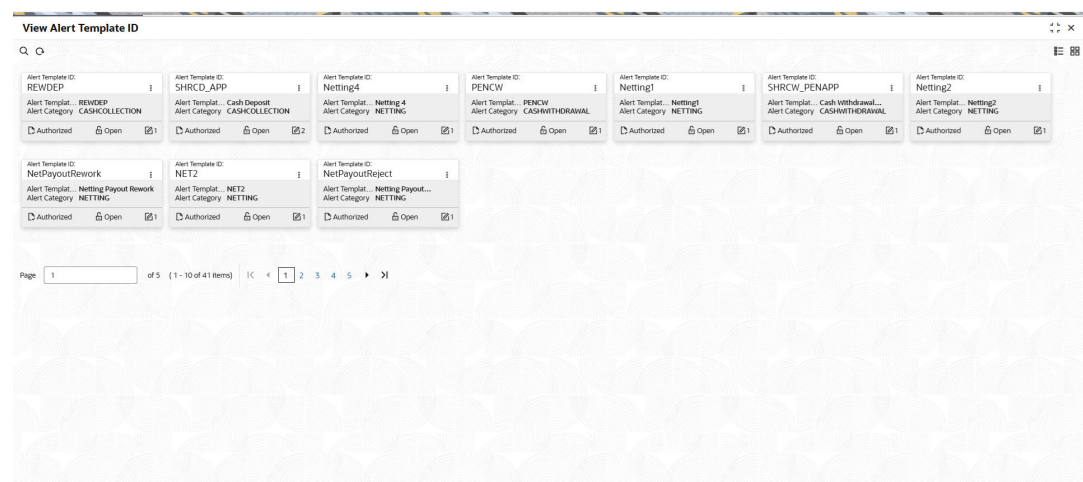

A tile is present for each record that has been created. The bottom portion of each record-tile displays the following:

- The status, whether Authorized, Unauthorized, or Rejected
- Open or Closed
- The number of times the record has been submitted by the Maker added.

Specify **User ID** and **Password**, and login to **Home** screen.

- On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Alerts**.
- Under **Alerts**, click **Alert Template Details**. Under **Alert Template Details**, click **View Alert Template Details**.

The **View Alert Template Details** screen displays.

5

Instrument Collections

This topic describes the systematic instruction to enter the details about the batch of instruments (Cheque) collected for clearing.

The batch of these instruments may have been physically collected or received by courier. This screen allows you to enter details of such batches and instruments therein, such as total batch amount and deposit slip numbers, which will be validated at the time of saving the record to avoid any calculation error. You can also view the deposit slip details in the summary screen before confirming and sending the record for authorization.

If an instrument collection record is received from an external channel or through file upload, and if the mandatory data is not present, then the bank user can edit and enrich such records.

Specify **User ID** and **Password**, and login to **Home** screen.

Basic Info

This screen enables you to input batch related information. The branch is defaulted as per the login ID and can be changed to another branch based on access rights. The batch amount currency selected here is defaulted in the next tab.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Instrument Collections**.

The **Instrument Collections - Basic Info** screen displays.

Figure 5-1 Instrument Collections - Basic Info

3. Specify the fields on **Instrument Collections - Basic Info** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 5-1 Basic Info - Field Description

Field	Description
Reference Number	Click Create to auto-generate a reference number for a new instruments collection record, or click Draft to select an existing reference number. The Draft option can be used to edit records that have been partially entered and saved, or records that have been uploaded through file upload.
Reference Number	Click the search icon to select an existing reference number. This field is enabled only if the Draft is selected.
Branch	Select the bank's branch where the instrument is deposited. This field displays values based on your access rights. This field cannot be modified once authorized.
Deposit Channel	Select the deposit channel, whether Courier or Branch . This indicates whether the instrument is picked up by a courier agency or deposited by the corporate in the branch. This field cannot be modified once authorized.
Financial Posting	Switch the toggle ON, if GL entries should be posted. The Processing Date field will be disabled. This field cannot be modified once authorized.
Processing Date	Click the calendar icon to select the date on which the deposit slips are entered. This date cannot be beyond current branch date. This field cannot be modified once authorized.
Deposit Location	Click the search icon to select the location from where the instrument is deposited. This field cannot be modified once authorized.
Acknowledgment Receipt Number	Specify the acknowledgment number, if any.
Bag Weight (in kg)	Specify the weight of the package in kilograms upon receipt.
Initiator Reference Number	Specify the reference number assigned for receiving the package, if any.
Total Batch Amount	Select the currency and enter the total amount of the deposit slips to be processed in a single batch. This field cannot be modified once authorized.
Deposit Slips	Specify the total number of deposit slips to be processed. This field cannot be modified once authorized.

9. Specify the details on the **Instrument Details** pop-up screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 5-3 Instrument Details - Field Description

Field	Description
Cheque Date	Click Current or Post Dated to specify the date of the cheque.
Instrument Number	Specify the instrument reference number. For example: Cheque number. This field cannot be modified once authorized.
Instrument Date	Click the calendar icon to select the date mentioned on the instrument. This field cannot be modified once authorized.
Instrument Type	Select the type of instrument added in the deposit slip. This field cannot be modified once authorized.
Instrument Amount	Specify the amount mentioned on the instrument. Currency is defaulted to the one from the Basic Info screen. This field cannot be modified once authorized.
Routing Number	Click the search icon to select the routing number. Selecting this field auto-populates values for Drawee Bank and Drawee Branch . This field cannot be modified once authorized.
Drawn On Bank Name	Displays the name of the bank on which instrument is drawn. This field cannot be modified once authorized.
Drawn On Branch Name	Displays the branch name of the bank. This field cannot be modified once authorized.
Clearing Location	Displays the clearing location maintained in the system based on selected drawee bank. This field cannot be modified once authorized.
Location Cluster	Displays the location cluster associated with the clearing location. This field cannot be modified once authorized.
Drawer	Specify the drawer name or click the search icon to select the same. This field is mandatory if Drawer Mandatory at Txn is enabled in the Corporate Enrichment screen. This field cannot be modified once authorized.
Drawer A/C No.	Specify the bank account number of the drawer. This field cannot be modified once authorized.
Drawer A/C Name	Specify the drawer account's name. This field cannot be modified once authorized.
Clearing Network	Click the search icon to select the network to be considered for clearing the instrument. This field cannot be modified once authorized.
Product	Displays the applicable product based on selected instrument type, deposit location, payable at location, drawee bank, and so on. If required, select the product of your choice. This field cannot be modified once authorized.

Table 5-3 (Cont.) Instrument Details - Field Description

Field	Description
Arrangement Days	Displays the number of days based on the selected product and corporate.
Vault Box Number	This field is displayed only for 'Post Dated' cheques. This vault box number associated with the branch for the selected instrument date is auto-populated. In case of multiple vault boxes maintained with the same presentation date, click the search icon to select the appropriate vault box number.
Vault Box Description	Displays the description of the selected vault box number. This field is displayed only for 'Post Dated' cheques.
Vault Branch	Displays the branch of the selected vault box number. This field is displayed only for 'Post Dated' cheques.
Presentation Date	The presentation date is auto-calculated based on the instrument date and the system parameter set for the activation date. This field is displayed only for 'Post Dated' cheques.
Credit Account No.	If required, select the real/virtual account number in which the amount should be credited else the amount is credited to the bank account number selected in the deposit slip details or to the default bank account.
Division Code	Click the search icon to select the division code in case the Division Code is mandatory in the Corporate Enrichment screen, else leave this blank. The selected division code can be used for MIS purpose or for pooling of funds to the specific division code. If the division code is available, the funds are pooled and credited to the specific account mentioned for the division code else to the credit account number specified or default account. This field cannot be modified once authorized.
User Defined Fields	Click the Add icon to add user defined fields.
Miscellaneous Fields	In the No. Of Miscellaneous Fields field, enter the number to specify how many fields are required. In each miscellaneous field box, enter the name of the field.

10. Click **Add** to add the instrument details. To add more instrument details, repeat the previous step.
11. Click **Add/Edit** to save the instrument details in the left pane.

Note

In case, you've added deposit slip details in this tab and click **Next**, without clicking **Add/Edit**, then the added deposit slip will not be added to the batch.

12. Click **Reset** to clear the selected values.
13. Click **Back** to move to the **Basic Info** screen.
14. Click **Save and Close** to save the populated data and close the window.
15. Click **Cancel** to close the window without saving the entered data.

Deposit Summary

This screen displays the summary of details entered on the **Basic Info** and **Deposit Slip Details** screen.

16. Click **Next** to move to the next screen.

The **Instrument Collections - Deposit Summary** screen displays.

17. Click **Submit** to submit the record for authorization.

In case, there are any errors in any of the deposit slips, a cross mark appears beside it. You can go back to the **Deposit Slip Details** tab to correct the error. Error-free deposit slips are highlighted with a check mark.

18. Click **Back** to move to the **Deposit Slip Details** screen.
19. Click **Save and Close** to save the populated data and close the window.
20. Click **Cancel** to cancel submission of the deposit entry record.

6

Cash Transactions

This topic describes the information to enter the data about cash deposited/withdrawn by corporate customers.

This topic contains the following subtopics:

- [Deposit Entry](#)
This topic describes the systematic instruction to enter the cash deposit data in the system.
- [Withdrawal Entry](#)
This topic describes the systematic instruction to capture cash withdrawal details.

6.1 Deposit Entry

This topic describes the systematic instruction to enter the cash deposit data in the system.

There are two channels through which the cash can be deposited by the Corporate.

- Branch: Cash can be deposited directly at the branch by the corporates.
- Courier: Corporates can avail a doorstep banking service wherein a courier person picks up the cash and deposits it at the branch.

Specify **User ID** and **Password**, and login to **Home** screen.

Basic Info

This screen helps you to input batch related information i.e, whether it is single deposit entry or multiple deposit entry (from multiple deposit slips), channel of receipt etc. The branch is defaulted as per login Id and can be changed to another branch based on access right.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Cash Transaction**. Under **Cash Transaction**, click **Deposit Entry**.

The **Deposit Entry - Basic Info** screen displays.

Figure 6-1 Deposit Entry - Basic Info

The screenshot displays the 'Deposit Entry - Basic Info' screen. The interface includes a sidebar on the left with options: 'Basic Info' (selected), 'Deposit Slip Details', and 'Deposit Summary'. The main area contains a form with the following fields and controls:

- Reference Number:** A text field with a search icon and buttons for 'Create' and 'Draft'.
- Branch:** A dropdown menu showing '004-FLEXCUBE-UNIVERSAL-B'.
- Deposit Channel:** A dropdown menu showing 'Branch'.
- Processing Date:** A date field showing 'April 29, 2022' with a calendar icon.
- Deposit Location:** A text field showing 'Bangalore'.
- Initiator Reference Number:** A text field.
- Deposit Slips:** A text field.
- ID Proof Type:** A dropdown menu showing 'Select'.
- ID Proof Detail:** A text field.
- Contact Number:** A text field.
- Acknowledge Receipt Number:** A text field.
- Financial Posting:** A checkbox.
- Bag Weight (In kg):** A text field with up and down arrows.
- Depositor Name:** A text field.

At the bottom right, there are buttons for 'Cancel', 'Save & Close', and 'Next'. The top right corner shows 'Errors & Overrides' and 'Screen(1/3)'.

3. Specify the fields on **Deposit Entry - Basic Info** screen.**Note**

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 6-1 Basic Info - Field Description

Field Name	Description
Reference Number	Click Create to auto-generate a reference number or click 'Draft' to select an existing reference number.
Reference Number	Click the search icon to select an existing reference number. This field is displayed only when the Existing option is selected.
Branch	Select the bank's branch where the cash is being deposited. This field displays values based on your access rights. This field cannot be modified once authorized.
Deposit Channel	Select the deposit channel, whether 'Courier' or 'Branch'. This indicates whether the cash is being picked up by a courier agency or deposited in the branch by the corporate. The field relevant to the selected channel, is displayed. This field cannot be modified once authorized.
Financial Posting	Switch the toggle ON if accounting entries need to be posted.
Processing Date	Click the calendar icon to select the date on which the cash is deposited. By default, the current branch date is displayed and cannot be beyond the same. You can manually select the processing date only if the 'Financial Posting' toggle is switched OFF. This field cannot be modified once authorized.
Deposit Location	Displays the location based on the selected branch.
Acknowledgment Receipt Number	Specify the acknowledgment number, if any.
Bag Weight (in kg)	Specify the weight of the package in kilograms upon receipt.
Initiator Reference Number	Specify the reference number assigned for receiving the package, if any.
Deposit Slips	Specify the total number of deposit slips to be processed. This field is displayed only when the Deposit Channel is selected as Branch .
Depositor Name	Specify the name of the person who is depositing the cash. This field is mandatory and appears only when the Deposit Channel is selected as Branch .
ID Proof Type	Select the type of ID proof displayed/submitted by the depositor. This field is mandatory and appears only when the Deposit Channel is selected as Branch .
ID Proof Detail	Specify the ID proof details of the depositor. This field is mandatory and appears only when the Deposit Channel is selected as Branch .
Contact Number	Specify the contact number of the depositor. This field is mandatory and appears only when the Deposit Channel is selected as Branch .

Table 6-1 (Cont.) Basic Info - Field Description

Field Name	Description
Courier	Click the search icon to select the courier company. This field is mandatory and appears only when the Deposit Channel is selected as Courier .
Consignment Number	Specify the consignment number allocated by the courier company. This field is mandatory and appears only when the Deposit Channel is selected as Courier . This field cannot be modified once authorized.
Consignment Date	Click the calendar icon to select the date on which the consignment is received. This field is mandatory and appears only when the Deposit Channel is selected as Courier . This field cannot be modified once authorized.

4. Perform one of the following action:

- Click **Save and Close** to save the populated data and close the window.
- Click **Cancel** to close the window without saving the entered data.

Deposit Slip Details

This screen helps you to input the information related to the deposit slip. Additionally, you can select an external reference number to load deposit slips received through an external channel, and enrich the data and send for further processing. The number of deposit slips entered/selected in this tab, should match the number entered in the Basic Info tab.

5. Click **Next** to save the data and move to the next screen.

The **Deposit Entry - Deposit Slip Details** screen displays.

Figure 6-2 Deposit Entry - Deposit Slip Details

6. Specify the fields on **Deposit Entry - Deposit Slip Details** screen.**Note**

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 6-2 Deposit Slip Details - Field Description

Field Name	Description
External Reference Number	Click the search icon and select the reference number generated by an external application. Upon selecting a reference number, all associated deposit slips appear in the left pane. OR Click the search icon and select the deposit slips associated with the external reference number.
Deposit Slip Number	Specify a new deposit slip number or select an existing one from the left pane. Selecting an existing deposit slip number auto-populates the data in the Deposit Slip Details pane on the right. A delete icon is present beside each deposit slip in the left pane. Upon selecting a deposit slip, if you wish to clear the Deposit Slip Details pane on the right, you can click this icon. This refreshes the right pane and makes it editable again. This field cannot be modified once authorized. This field cannot be modified once authorized.
Corporate	Click the search icon to select the corporate for whom the cash collection entry is being made. This field cannot be modified once authorized.
Credit Account No.	Click the search icon to select the real/virtual credit account number where the entire fund should be credited at deposit slip level. This field cannot be modified once authorized.
Deposit Slip Date	Click the calendar icon to select the date mentioned on the deposit slip. This field cannot be modified once authorized.
Pickup Location	Click the search icon to select the location from where the deposit slip has been collected by the courier agency or the branch location where the cash is deposited by the corporate. This field cannot be modified once authorized.
Pickup Point	Click the search icon to select an exact pick-up point of the corporate from where the deposit slip along with the physical cash is being picked up by the courier agency. This field cannot be modified once authorized.
Pickup Date	Click the calendar icon to select the date on which the deposit slip or cash is being collected. This field cannot be modified once authorized.
Total Denomination Count	Specify the total number of cash denominations. This field cannot be modified once authorized.
Deposit Slip Amount	Select the currency and enter the total amount of the cash deposited through the deposit slip. Click the info (i) icon to view all the currencies maintained for the deposit branch.
Division Code	Click the search icon to select the division code in case Division Code is mandatory in the Corporate Enrichment screen else leave this blank. The selected division code can be used for MIS purpose or for pooling of funds to the specific Division code. This field cannot be modified once authorized.
Exchange Rate	Displays the exchange rate based on the credit account currency and deposit slip amount currency.

Table 6-2 (Cont.) Deposit Slip Details - Field Description

Field Name	Description
Amount (Account CCY)	Displays the amount in account currency, after application of exchange rate. It is displayed if credit account number along with deposit slip amount is captured.
Pooling Account Details	Click this link to view the pooling maintenance details along with the expected pooling credit details.
User Defined Fields	Click the Add icon to add user defined fields.
Miscellaneous Fields	In the No. Of Miscellaneous Fields , enter the number of fields required. In each miscellaneous field box, enter the name of the field.

7. In the **Denomination Details** section, click the Add (+) icon to add a row of denomination.

The **Deposit Slip Details - Denomination Details** screen displays.

Figure 6-3 Deposit Slip Details - Denomination Details

Table 6-3 Denomination Details - Field Description

Field	Description
Denomination Type	Select the denomination type as Note or Coin .
Denomination Value	Specify the total value of the selected denomination.
Count	Specify the number of notes or coins of the specific denomination.
Denomination Amount	Displays the amount as the denomination value multiplied by the count.
Action	Click to edit the denomination record, or to delete the record.

Note

Adding the denomination details is mandatory or non-mandatory, based on the value of a system parameter flag. If the flag is set to 'Y' then entering the details is mandatory, and if set to 'N', it is non-mandatory.

8. Click **Add/Edit** to add denomination details in the left pane or to modify a selected record.
9. Click **Reset** to clear the selected values.
10. Perform one of the following:
 - Click **Back** to move to the **Basic Info** screen.
 - Click **Save and Close** to save the populated data and close the window.
 - Click **Cancel** to close the window without saving the entered data.

Deposit Summary

This screen displays the summary of details entered on the **Basic Info** and **Deposit Slip Details** screen. Double click the tile to view the complete cash deposit details.

11. Click **Next** to move to the next screen.

The **Deposit Entry - Deposit Summary** screen displays.

Figure 6-4 Deposit Entry - Deposit Summary

Denomination Type	Denomination Value	Denomination Count	Denomination Amount
▼ Deposit Slip No. 989			
Note	10	100	GBP 1000.00
			Total Amount : GBP 1000.00

12. Perform one of the following:
 - Click **Submit** to submit the record for authorization.
 - Click **Back** to move to the **Deposit Slip Details** screen.
 - Click **Save and Close** to save the populated data and close the window.
 - Click **Cancel** to discard the deposit slip creation and close the window.

6.2 Withdrawal Entry

This topic describes the systematic instruction to capture cash withdrawal details.

The user can either manually enter the withdrawal entry data or fetch the data by selecting the external reference number, which auto-populates the fields in the screen. There can be two cash recipients for the cash withdrawal entry, namely, 'Corporate' and 'Courier'.

- **Corporate:** On the withdrawal date, the cash is directly collected by the corporate. The bank user captures the cash withdrawal request.
- **Courier:** On the withdrawal date, the courier agency having tie-up for cash delivery, collects the cash from the branch and delivers it at the Corporate Delivery point specified in the withdrawal request.

When a cash withdrawal request is submitted by the bank user, a lien marking request is processed and a lien is marked in the debit account for the requested amount. In case the cash withdrawal request is edited again and submitted, then the existing lien number is canceled, and a new lien marking request is sent. Similarly, if a cash withdrawal request is received from an external channel, a lien marking request is sent by the Oracle® Banking Cash Management Cloud Service module to the bank's core system, only if the system parameter flag (Block Amount) is set to 'Y'. Upon validation of corporate details, the lien is marked in the debit account for the requested amount, till the withdrawal date. On the withdrawal date, the lien marking can be canceled and a new one created, if there is a change in the exchange rate (between requested amount and account currencies) or if the withdrawal entry is edited and submitted by the bank user. Once the requested is authorized, the earn marking is released and the Cash Withdrawal accounting entry is posted for the lien amount. Liens that are not released on the withdrawal date, are released as part of an EOD batch job.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Cash Transaction**. Under **Cash Transaction**, click **Withdrawal Entry**.

The **Withdrawal Entry** screen displays.

Figure 6-5 Withdrawal Entry

The screenshot shows the 'Withdrawal Entry' form with the following fields and values:

Instrument Management

This topic describes the information to manage cheques received for collection basis and the action to be performed on the instruments.

You can search for cheques using various search criteria and can take suitable actions on multiple records at once. The processing date is defaulted to the current business date. You can manage both current dated cheques and post-dated cheques.

This topic contains the following subtopics:

- [Manage Current Dated Cheques](#)
This topic describes the information to manage the current dated cheques received and take various actions on them.
- [Manage Post Dated Cheques](#)
This topic describes the information to manage the post dated cheques received and take various actions on them.

7.1 Manage Current Dated Cheques

This topic describes the information to manage the current dated cheques received and take various actions on them.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Instrument Management**.
The **Instrument Management - Current Dated Cheques** screen displays.

Figure 7-1 Instrument Management - Current Dated Cheques

The screenshot shows a web application interface titled "Instrument Management". Below the title is a section labeled "Instrument Details". Inside this section, there are four main input areas: "Branch" with a dropdown menu showing "004-FLEXCUBE-UNIVERSAL-B"; "Cheque Date" with two buttons, "Current" (which is highlighted) and "Post Dated"; "Action" with a dropdown menu showing "Select" and a "Required" label below it; and "Processing Date" with a text field showing "April 29, 2022" and a "Proceed" button to its right.

3. From the **Branch** list, select the branch for which the cheque is to be managed. By default, the branch of the logged-in user is selected.
4. In the **Cheque Date** toggle, select the **Current** option.
5. From the **Action** list, select any one of the following:
 - **Credit Advancement/Postponement**
 - **Generate Schedule**
 - **Mark Schedule Receipt**
 - **Generate Centralized Schedule**
 - **Mark Return Receipt**

- **Mark Instrument Status**

6. Click **Proceed** to view the search parameters.

This topic contains the following subtopics:

- [Credit Advancement/Postponement](#)
This topic describes the systematic instruction to prepone or postpone the credit of the instrument.
- [Generate Schedule](#)
This topic describes the systematic instruction to generate a forwarding schedule in case where clearing is to be routed through partner banks or for upcountry clearing a schedule is to be generated for the instruments.
- [Mark Schedule Receipt](#)
This topic describes the systematic instruction to mark the receipt of a schedule whenever a schedule is drawn on a branch of the system bank.
- [Generate Centralized Schedule](#)
This topic describes the systematic instruction to generate a centralized schedule by a hub or controlling branch.
- [Mark Return Receipt](#)
This topic describes the systematic instruction to mark the return receipt for upcountry instruments returned by the collecting bank.
- [Mark Instrument Status](#)
This topic describes the systematic instruction to mark the instrument status as 'Realized', 'Returned', or 'Hold' when the payee bank gets the fate of the instrument from the drawee bank when the instrument is sent for clearing.

7.1.1 Credit Advancement/Postponement

This topic describes the systematic instruction to prepone or postpone the credit of the instrument.

The advancement can be used to prepone the instrument credit date and postponement can be used to postpone the instrument credit date. Only that instrument which are due for arrangement credit for Guaranteed Arrangement Corporates are eligible for this action.

1. On **Instrument Management - Current Dated Cheques** screen, select **Credit Advancement/Postponement** from the **Action** list.
2. Click **Proceed**.
3. Click **Filter** icon to filter the list of instruments.

The **Credit Advancement/Postponement - Search Parameters** screen displays.

Figure 7-2 Credit Advancement/Postponement - Search Parameters

The screenshot shows the 'Search Parameters' screen for Credit Advancement/Postponement. It features a grid of search filters:

- Arrangement Credit Date:** April 30, 2022
- Corporate:** Search field with magnifying glass icon
- Deposit Date Range:** Date range selector with calendar icons
- Clearing Location:** Search field with magnifying glass icon
- Currency:** Dropdown menu showing GBP
- Reference Number:** Search field with magnifying glass icon
- Instrument Date Range:** Date range selector with calendar icons
- Drawee Bank:** Search field with magnifying glass icon
- Product Type:** Dropdown menu showing Select
- Deposit Slip Number:** Search field with magnifying glass icon
- Deposit Branch:** Dropdown menu showing 004-FLEXCUBE-UNIVERSAL-B
- Product:** Dropdown menu showing Select
- Instrument Number:** Search field with magnifying glass icon
- Deposit Location:** Search field with magnifying glass icon

At the bottom left, there are 'Search' and 'Reset' buttons.

4. Specify the fields on **Credit Advancement/Postponement - Search Parameters** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 7-1 Credit Advancement/Postponement - Field Description

Field	Description
Arrangement Credit Date	Click the calendar icon and select the due date on which the instrument amount is supposed to be credited to the customer's account/
Currency	Select the currency of the instrument.

Instrument Summary

Total Instrument Amount (£) £10.00

Credit Advancement (0) £0.00

Credit Postponement (0) £0.00

Submit

6. Select the instruments to be submitted for credit advancement/postponement.
7. In the **New Credit Date** field, click the calendar icon and select the date on which instrument amount should be credited.
8. Optional: In the **Remarks** field, enter the remarks for the updated credit date.
9. Click **Apply** to update the new credit date in the grid.
10. If required, select the record and then click **Undo** to revert the applied advancement/postponement.
11. Click **Submit** to confirm the records for credit advancement/postponement and send it for authorization.

7.1.2 Generate Schedule

This topic describes the systematic instruction to generate a forwarding schedule in case where clearing is to be routed through partner banks or for upcountry clearing a schedule is to be generated for the instruments.

A forwarding schedule is essentially a covering letter, which comprises the details of the instruments dispatched to the concerned bank's branch for clearing. This covering letter is sent along with the physical instruments.

1. On **Instrument Management - Current Dated Cheques** screen, select **Generate Schedule** from the **Action** list.
2. Click **Proceed**.

The **Generate Schedule - Filter Parameters** screen displays.

Figure 7-4 Generate Schedule - Filter Parameters

Filter Parameters

Deposit Branch: 004-FLEXCUBE-UNIVERSAL-B | Currency: GBP | Destination Bank: | Destination Branch: | Search | Reset

3. Specify the fields on **Generate Schedule - Filter Parameters** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 7-2 Generate Schedule - Field Description

Field	Description
Deposit Branch	Select the branch where the instrument is deposited. By default, the branch of the logged-in user is selected.
Currency	Select the currency of the instrument.
Destination Bank	Click the search icon and select the bank where the instrument will be cleared.
Destination Branch	Click the search icon and select the branch of the destination bank.

4. Click **Search**.

The **List Of Instruments** section displays with the search results.

								Confirm Cancel

- Under the **Courier** column, click **Search** icon to select the courier company.
- Optional: Click the schedule reference number link to view more details about the schedule.
- Select the schedule reference number and then click **Confirm** to generate the schedule and send it for authorization.

7.1.3 Mark Schedule Receipt

This topic describes the systematic instruction to mark the receipt of a schedule whenever a schedule is drawn on a branch of the system bank.

This typically is a branch at an outstation location. The destination branch in such a case must mark receipt of schedule for further processing.

1. On **Instrument Management - Current Dated Cheques** screen, select **Mark Schedule Receipt** from the **Action** list.
2. Click **Proceed**.

The **Mark Schedule Receipt - Filter Parameters** section displays.

Figure 7-7 Mark Schedule Receipt - Filter Parameters

3. Specify the fields on **Mark Schedule Receipt - Filter Parameters** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 7-3 Mark Schedule Receipt - Field Description

Field	Description
Receipt Branch	Select the branch of receipt. By default, the branch of the logged-in user is selected.
Deposit Branch	Click the search icon to select the branch from where the instrument is dispatched.

6. Click **Confirm** to mark the schedule receipt and send it for authorization.

7.1.4 Generate Centralized Schedule

This topic describes the systematic instruction to generate a centralized schedule by a hub or controlling branch.

Centralized Schedules are generated only for partner banks for whom the 'centralized schedule required' system parameter flag is set to 'Y' and a controlling branch is defined.

1. On **Instrument Management - Current Dated Cheques** screen, select **Generate Centralized Schedule** from the **Action** list.
2. Click **Proceed**.

The **Generate Centralized Schedule - Filter Parameters** section displays.

- Select the records to be linked to the centralized schedule.
- Click **Confirm** to send for authorization.

7.1.5 Mark Return Receipt

This topic describes the systematic instruction to mark the return receipt for upcountry instruments returned by the collecting bank.

It is marked by the branch, which dispatches the original schedule with upcountry instruments to a different bank when an upcountry instrument is returned by the destination bank's branch. This constitutes marking only the receipt of the courier as returned and not the actual instrument. The instrument can and must be marked as returned only after return receipt marking.

- On **Instrument Management - Current Dated Cheques** screen, select **Mark Return Receipt** from the **Action** list.
- Click **Proceed**.

The **Mark Return Receipt - Filter Parameters** section displays.

Submit

- Select the records for which the status needs to be updated.
- Perform any one of the following actions to change the instrument status:
 - Click **Mark Realized**, if the instrument is cleared.

- Click **Mark Return**, if the instrument is returned.
 - Click **Mark Hold**, to hold the instrument and in the **Hold Until** field, click the calendar icon to select the date until which the instrument should be on-hold.
7. Click **Submit** to update the instrument status and send it for authorization.

7.2 Manage Post Dated Cheques

This topic describes the information to manage the post dated cheques received and take various actions on them.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Collections**.
2. Under **Collections**, click **Instrument Management**.
3. From the **Branch** list, select the branch for which the cheque is to be managed. By default, the branch of the logged-in user is selected.
4. In the **Cheque Date** toggle, select the **Post Dated** option.
5. From the **Action** list, select the action to be taken on post-dated cheques.
6. Click **Proceed** to view the search parameters.
The **Instrument Management - Post Dated Cheques** screen displays.

Figure 7-14 Instrument Management - Post Dated Cheques

The screenshot shows the 'Instrument Management' window with a 'Post Dated Cheques' search form. The form includes several sections: 'Instrument Details' with a Branch dropdown (004-FLEXCUBE-UNIVERSAL-B), Cheque Date toggle (Current/Post Dated), Action dropdown (Mark Extension), and Processing Date (April 29, 2022) with a 'Proceed' button. Below this is a 'Hide Search' section with Deposit Branch, Currency (GBP), Corporate (Search), Deposit Slip Number, Instrument Number, Product (Select), Drawee Bank, Instrument Date Range (Required), Deposit Date Range (Required), and Vault Box Number. Search and Reset buttons are at the bottom.

7. Specify the fields on **Instrument Management - Post Dated Cheques** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 7-7 Post Dated Cheques - Field Description

Deposit Date Range	Click the calendar icons and select the start and end dates of the date range within which the instrument was deposited.
Vault Box Number	Click the search icon and select the vault box number in which the instrument is stored. This field is not displayed for the Mark Extension action.

8. Click **Search** to view the search results.

Further procedure differs based on the selected action to be taken on the instrument. Click on the action name to get redirected to the relevant procedure:

- [Mark Extension](#)
This topic describes the systematic instruction to mark the extension for the instruments.
- [Mark Hold](#)
This topic describes the systematic instruction to mark hold for the post-dated cheques in the bank's custody, without presenting for clearance, until further notice is provided.
- [Mark Unhold](#)
This topic describes the systematic instruction to manually unhold the instruments that are currently on hold.
- [Mark Misplaced](#)
This topic describes the systematic instruction to mark the misplaced post-dated cheque by the bank or pick vendor.
- [Mark Recovered](#)
This topic describes the systematic instruction to mark the recovered post-dated cheques which are misplaced by the bank/vendor, before their instrument date.
- [Mark Replacement and Withdrawal](#)
This topic describes the systematic instruction to replace or withdraw the instrument when the issuer of the cheque requests.

7.2.1 Mark Extension

This topic describes the systematic instruction to mark the extension for the instruments.

In case the Buyer/Drawer of the PDC does not have sufficient funds in debiting account, he may ask for an extension on certain PDC instrument to avoid cheque getting bounced. Only PDC instruments that are due for activation and not activated for presentation will be displayed in the search result.

1. On **Instrument Management - Post Dated Cheques** screen, select **Mark Extension** from the **Action** list.
2. Click **Search** to view the list of instruments.
3. In the search results, select the instruments to mark extension for.

The **List Of Instruments** screen displays the **Total Instrument Amount** and **Total Instrument Count** displays in the summary box on selecting the records.

Figure 7-15 List Of Instruments

The screenshot shows the 'Instrument Management' interface. At the top, there are search filters: 'Select' (a dropdown), 'Search' (a text box with a magnifying glass), 'Instrument Date Range' (two date pickers), 'Deposit Date Range' (two date pickers), and 'Vault Box Number' (a text box with a magnifying glass). Below these are 'Search' and 'Reset' buttons. The main area is a table with columns: Instrument Number, Instrument Amount, Corporate Name, Presentation Date, New Presentation Date, and Remarks. The first row is selected, showing instrument number 9256, amount 10000, corporate name Carrefour, and presentation date 2023-06-06. To the right of the table is a summary box titled 'Instrument Date Extension Summary' showing 'Total Instrument Amount (£)' as £10,000.00 and 'Total Instrument Count' as 1. At the bottom, there are fields for 'Total Selected' (1), 'New Presentation Date' (with a calendar icon and 'Required' label), 'Remarks' (a text box), and 'Apply' and 'Submit' buttons.

Instrument Number	Instrument Amount	Corporate Name	Presentation Date	New Presentation Date	Remarks

<input type="checkbox"/> 9234	20000	Carrefour	2023-06-08		

4. Optional: In the **Instrument Number** column, click the number to view more details.
5. In the **Hold Until** field, click the calendar icon and select the date up to which the instrument should be kept on hold. Keeping this date blank allows you to manually unhold the instrument whenever required.
6. In the **Remarks** field, enter the remarks for keeping the instrument on hold.
7. Click **Apply** to update the grid with the new details.
8. If required, click **Undo** to revert the applied changes.
9. Select the updated records from the grid and then click **Submit** to send it for authorization.

7.2.3 Mark Unhold

This topic describes the systematic instruction to manually unhold the instruments that are currently on hold.

Only post-dated instruments that are on hold are displayed in the search results.

1. On **Instrument Management - Post Dated Cheques** screen, select **Mark Unhold** from the **Action** list.
2. Click **Search** to view the list of instruments.
3. From the search results, select the instruments to be marked.

The **List Of Instruments** screen displays with the **Total Instrument Amount** and **Total Instrument Count** in the summary box on selecting the records.

Figure 7-17 List Of Instruments

The screenshot shows the 'Instrument Management' window. It includes a 'Hide Search' section with filters for Deposit Branch (004-FLEXCUBE-UNIVERSAL-B), Product, Instrument Date Range, Currency, Corporate, Deposit Date Range, Deposit Slip Number (923), Instrument Number, Drawee Bank, Drawee Bank Branch, and Vault Box Number. Below the filters is a table with columns: Instrument Number, Instrument Amount, Corporate Name, Instrument Date, Vault Box Number, and Remarks. The table contains one record: 9236, 10000, Carrefour, 2023-06-08, PDCS1. To the right of the table is an 'Instrument Unhold Summary' box showing 'Total Instrument Amount: £10,000.00' and 'Total Instrument Count: 1'. At the bottom, there is a 'Total Selected' field showing '1', a 'Remarks' field, and 'Apply' and 'Submit' buttons.

4. Optional: In the **Instrument Number** column, click the number to view more details.
5. In the **Remarks** field, enter the remarks to un-hold the instrument.
6. Click **Apply** to update the grid with the new details.
7. If required, click **Undo** to revert the applied changes.
8. Select the updated records from the grid and then click **Submit** to send it for authorization.

7.2.4 Mark Misplaced

This topic describes the systematic instruction to mark the misplaced post-dated cheque by the bank or pick vendor.

If the instrument is not recovered till the instrument date, it gets auto-cancelled. Only post-dated instruments that are due for activation and not activated for presentation are displayed in the search results.

1. On **Instrument Management - Post Dated Cheques** screen, select **Mark Misplaced** from the **Action** list.
2. Click **Search** to view the list of instruments.
3. From the search results, select the instruments to be marked.

The **List Of Instruments** screen displays with the **Total Instrument Amount** and **Total Instrument Count** in the summary box on selecting the records.

Figure 7-18 List Of Instruments

Submit

4. Optional: In the **Instrument Number** column, click the number to view more details.
5. In the **Remarks** field, enter the remarks for the recovery.
6. Click **Apply** to update the grid with the new details.
7. If required, click **Undo** to revert the applied changes.
8. Select the updated records from the grid and then click **Submit** to send it for authorization.

7.2.6 Mark Replacement and Withdrawal

This topic describes the systematic instruction to replace or withdraw the instrument when the issuer of the cheque requests.

The following scenarios are possible with instruments:

- **Replacement:** When the buyer wants to provide fresh instruments in order to avoid the deteriorating physical condition of the provided cheques, which might have gone through wear and tear.
- **Withdrawal:** In case the buyer has provided post-dated cheques for periodic payment of a loan and repays the entire loan amount before the tenure ends. Hence, the post-dated cheques of the remaining tenure are required to be withdrawn from the system.

Only post-dated instruments that are due for activation and not activated for presentation will reflect in the **Mark Replacement** screen.

1. On **Instrument Management - Post Dated Cheques** screen, select **Mark Replacement & Withdrawal** from the **Action** list.
2. Click **Search** to view the list of instruments.
3. From the search results, select the instruments to be marked.

The **List Of Instruments** screen displays with the **Total Instrument Amount** and **Total Instrument Count** in the summary box on selecting the records.

File Management

This topic describes the information on the File Management functionality provided in Collections module.

The **File Management** functionality enables you to upload files in a pre-defined format. These files are auto-processed by the system based on their type and set rules. The process is mainly divided into two screens:

- [Upload Files](#)
This topic describes the systematic instruction to upload a file for entering the instrument collection data into the system.
- [View File Upload Status](#)
This topic describes the systematic instruction to manage the status of the uploaded files.

8.1 Upload Files

This topic describes the systematic instruction to upload a file for entering the instrument collection data into the system.

The uploaded files are not processed until it is approved. The file can contain data records of cashflow codes and cashflow transactions etc. The file format accepted by the system includes “.csv” files.

Table 8-1 Instrument Collection File - Supported Fields

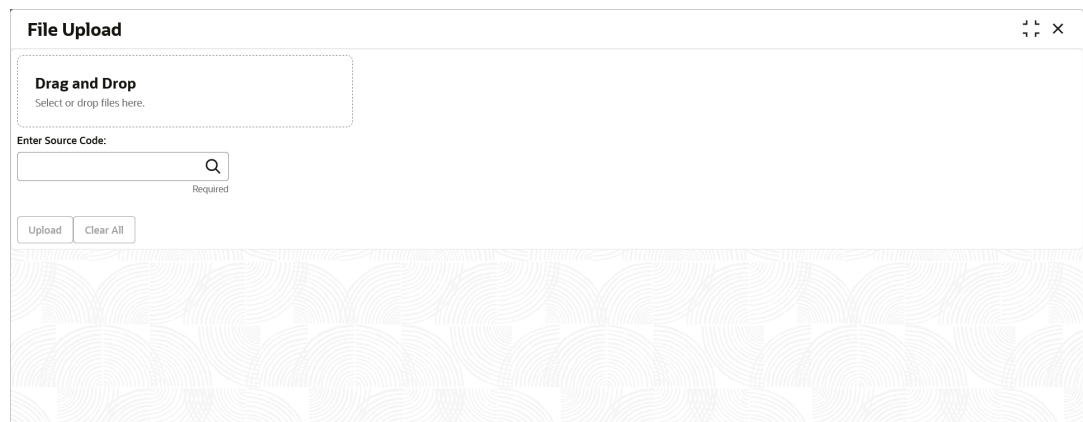

Field Column 1	Field Column 2	Field Column 3	Field Column 4

Deposit Slip number	UDF 6	MISC 10	-

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **File Management**. Under **File Management**, click **File Upload**.

The **File Upload** screen displays.

Figure 8-1 File Upload

2. Drag and drop the file to be uploaded in the highlighted box. or, Click inside the highlighted box to select the file to be uploaded.
3. In the **Enter Source Code** field, specify the source code of the application to associate the file records to.
4. Click **Upload** to upload the records from the file. Once the file is uploaded, it cannot be deleted.

A message appears stating that the file has been uploaded successfully.

Note

Instrument records through file upload are created even if certain mandatory fields are not added in the file while uploading. Whenever such records are edited and saved by the bank user, a validation is performed to ensure that all mandatory fields are updated.

8.2 View File Upload Status

This topic describes the systematic instruction to manage the status of the uploaded files.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **File Management**. Under **File Management**, click **View File Upload Status**.

The **View File Upload Status** screen displays.

Inquiries

This topic describes the information on the various inquiries supported in the Collections module.

- [Instrument Inquiry](#)
This topic describes the systematic instruction to inquire the status of the instruments based on various criteria such as Deposit Slip No, Bank Account Number, Instrument Amount range, Deposit Date range, Deposit Channel, Deposit/Clearing Location, and so on.
- [Accounting Inquiry](#)
This topic describes the systematic instruction to search for accounting entries based on various criteria such as File Reference Number, Event, Product, Party, Account Number, and so on.
- [Cash Deposit Inquiry](#)
This topic describes the systematic instruction to inquire the status of the cash deposit slips booked in the system, based on various criteria such as Deposit Slip Number, Deposit Location, Courier, Deposit Channel, Currency, Account Number, and so on.
- [Cash Withdrawal Inquiry](#)
This topic describes the systematic instruction to inquire the status of the cash withdrawn from the system based on various criteria such as Slip Number, Withdrawal Location, Account Number, and so on.
- [Charge Inquiry](#)
This topic describes the systematic instruction to search for specific charges based on various filter criteria such as Event, Corporate, Charge Type, Txn Ref No, Posting/Calculation Date, and so on.

9.1 Instrument Inquiry

This topic describes the systematic instruction to inquire the status of the instruments based on various criteria such as Deposit Slip No, Bank Account Number, Instrument Amount range, Deposit Date range, Deposit Channel, Deposit/Clearing Location, and so on.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Inquiry**.
2. Under **Inquiry**, click **Instrument Inquiry**.

The **Instrument Inquiry** screen displays.

9.4 Cash Withdrawal Inquiry

This topic describes the systematic instruction to inquire the status of the cash withdrawn from the system based on various criteria such as Slip Number, Withdrawal Location, Account Number, and so on.

Specify **User ID** and **Password**, and login to **Home** screen.

- On **Home** screen, click **Cash Management**. Under **Cash Management**, click **Inquiry**.
- Under **Inquiry**, click **Cash Withdrawal Inquiry**.

The **Cash Withdrawal Inquiry** screen displays.

Figure 9-13 Cash Withdrawal Inquiry

The screenshot shows the 'Cash Withdrawal Inquiry' window with a 'Hide Search' button in the top left. The search criteria are organized into four columns:

- Column 1:** Withdrawal Branch (dropdown menu showing '004-FLEXCUBE-UNIVERSAL-B'), Cheque Number (text input), Amount Reference Basis (dropdown menu showing 'Select'), Date Reference Basis (dropdown menu showing 'Select'), and Search/Reset buttons.
- Column 2:** Corporate (text input with search icon), Reference Number (text input), Currency (dropdown menu showing 'Select'), and Date Range (calendar icon and date input).
- Column 3:** Account Number (text input with search icon), External Reference Number (text input), From Amount (text input), and Processing Status (dropdown menu showing 'Select').
- Column 4:** Slip Number (text input), Courier (text input with search icon, marked as 'Required'), To Amount (text input), and Debit Status (dropdown menu showing 'Select').

- Specify the fields on **Cash Withdrawal Inquiry** screen.

Note

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 9-4 Cash Withdrawal Inquiry - Field Description

Field	Description
Withdrawal Branch	Select the branch from where the cash has been withdrawn.
Corporate	Click the search icon and select the corporate by/for whom the cash is withdrawn.
Account Number	Click the search icon and select the account number from which the cash has been withdrawn.
Slip Number	Specify the specific deposit slip number to search for.
Cheque Number	Specify the cheque leaf number used for cash withdrawal.
Reference Number	Specify the transaction reference number.
External Reference Number	Specify the external transaction reference number.
Courier	Click the search icon and select the courier service employed.
Amount Reference Basis	Select the reference basis for a withdrawal amount range search.
Currency	Select the currency of the cash.
From Amount	Specify the minimum amount of the range selected in the Amount Reference Basis field.
To Amount	Specify the maximum amount of the range selected in the Amount Reference Basis field.
Date Reference Basis	Select the reference basis for a date range search. The available options are: <ul style="list-style-type: none"> Request Date Processing Date Lien Date
Date Range	Click the calendar icons and select the start and end dates of the date range for the option selected in the Date Reference Basis field.

Table 9-5 Charge Inquiry - Field Description

Field	Description
Branch	Select the required branch to proceed further. By default, the branch of the logged-in user is selected.
Event	Select the event, on the occurrence of which, the charge(s) has been applied.
Corporate	Click the search icon and select the corporate party that has been charged.
Reference Number	Specify the reference number to fetch the calculated / collected charges for the same.
Charge Code	Click the search icon and select the code of the charge being searched.
Charge Group	Select the charge group of the charge being searched. The available options are: <ul style="list-style-type: none"> • Rebates • Tax • Commission • Fee
Txn Ref No.	Specify the reference number of the charge being searched. This field displays a list of relevant reference numbers once a corporate has been selected.
Charge Type	Select whether the charge is Debit or Credit type.
Charge Account	Click the search icon and select the account number that the charge has been debited from or credited to. You can select the account type, whether customer account or GL account, in the Charge Account search window that pops-up.
Date Reference Basis	Select whether the charges should be searched based on the 'Posting Date' or the 'Calculation Date'.
Date Range	Specify the 'from' and 'to' dates for the option selected from the 'Date Reference Basis' list.
Collection Type	Select whether the charge has been collected 'Online' or in a 'Batch'.
Product	Select the product against which the charge has been applied.
Deposit Slip No	Specify a deposit slip number to view all charge transactions that have been calculated and collected for that deposit slip number.
Instrument Number	Specify an instrument number to view all charge transactions that have been calculated and collected for that instrument number.
Instrument Type	Select the type of instrument against which the charge has been applied. The available options are: <ul style="list-style-type: none"> • PDC Collection • CDC Collection • Cash Deposit • Cash Withdrawal

Table 9-5 (Cont.) Charge Inquiry - Field Description

Field	Description
Instrument Status	Select the status of the instrument against which the charge has been applied. The available options are: <ul style="list-style-type: none"> • Booked • Hold • Returned • Realized
Credit/Debit Status	Select the required transaction status. The available options are: <ul style="list-style-type: none"> • Credited • Reversed • Partially Reversed

Batch Jobs

This topic describes the events that are part of Beginning of Day (BOD) and End of Day (EOD) batch jobs run by the system on daily basis.

These activities are run by the system as batch jobs at the beginning and/or end of the day.

EOD Batch Jobs

Table 10-1 EOD Batch

S No	Job Name	Description
1	Unhold Post Dated Cheque	When the branch date is equal to instrument unhold date, this job updates the status of post-dated cheques that are currently in Hold status, as Unhold.
2	Post Dated Cheque Cancellation	When the branch date is equal to presentation date of the PDC cheques and the status is misplaced, this job updates PDC status as Cancelled.
3	Arrangement Credit	This job processes the arrangement credit to the Corporate Account, when the arrangement credit date is equal to the branch date.
4	Credit Reversal	When the branch date is equal to credit reversal date and the instrument status is still unknown, this job processes the arrangement credit reversal entry.
5	Return Recovery	On the return status update, this job processes and passes the Internal GL accounting entries for return recovery.
6	Vault Master Record Status	When the branch date is equal to the vault expiry date, this job updates the vault status from Open to Close.
7	Pooling Job for Instrument Collection	This pooling job processes the customer credit accounting entries as per the pooling setup configuration in the system for 'Paper Based' product category.
8	Cash Pooling	This pooling job processes the customer credit accounting entries as per the pooling setup configuration in the system for 'Cash' product category.
9	Withdrawal Cancel ECA Job	This job cancels all ECA blocked amount requests for which no action has been taken or the withdrawal date has surpassed.
10	OBCM Outward Clearing Request Job	This job sends all outward clearing requests to OBPM (Oracle Banking Payments system).
11	Cheque Charges Job	This job processes charges for instrument collections.
12	Cash Charges Job	This job processes charges for cash deposits.

Note

Refer the **Branch EOD** section in **Oracle Banking Common Core User Guide** to Configure, Invoke, and View the EOD batch jobs.

11

Process Codes

This topic describes the information about the various functional activity codes in Cash Management.

The following table represents the manual stages in Cash Management workflow along with the functional activity codes which can be used for mapping in the role activity screen under the SMS menu.

Table 11-1 Functional Activity Codes

Stage	Functional Activity Code	Description
Processing	CMS_FA_MANUAL_ENRICHMENT	This is the processing stage of instrument collection where the maker can submit/reject an entry of instrument. If the entry is rejected, the record will be deleted and if submitted, then the transaction will be sent to the Authorization stage.
Authorization	CMS_FA_AUTHORISATION	This is the authorization stage of instrument collection / instrument management, where the checker can approve/reject an entry of instrument.
Rework	CMS_FA_CMSWK_REWORK	If the checker rejects an entry, it goes to the rework stage where the maker can do the required modifications to the entry and submit it again.
Posting Accounting Entries Exception	CMS_FA_POSTING_ACC_EXCEPTION	This is the accounting-posting workflow stage exception, where posting to FCUBS fails due to errors. These errors need to be resolved.
Accounting Generation Exception	CMS_FA_ACC_GEN_EXCEPTION	This is the accounting-generation workflow stage exception, where accounting generation fails due to accounting setup errors. These accounting setup errors need to be resolved.

Note

Refer the **Role** section in **Oracle Banking Security Management System User Guide** to understand the procedure for creating roles and assigning an activity to it.

Internal Account Mapping	OBCM_FA_INT_ACC_MAPP_VIEW_COPY_SERVICE	Copy	Copy and create a new Internal Account Mapping record
Arrangement Decisioning	OBCM_FA_ARRDEC_CREATE_SERVICE	Create	Create Arrangement Decisioning
Arrangement Decisioning	OBCM_FA_ARRDEC_VIEW_SERVICE	View	View Arrangement Decisioning
Arrangement Decisioning	OBCM_FA_ARRDEC_VIEW_AUTHORIZE_SERVICE	Authorize	Authorize the Arrangement Decisioning record
Arrangement Decisioning	OBCM_FA_ARRDEC_VIEW_UPDATE_SERVICE	Update	Unlock and edit the Arrangement Decisioning record
Arrangement Decisioning	OBCM_FA_ARRDEC_VIEW_CLOSE_SERVICE	Close	Close the Arrangement Decisioning record
Arrangement Decisioning	OBCM_FA_ARRDEC_VIEW_REOPEN_SERVICE	Reopen	Reopen a closed Arrangement Decisioning record

Table A-1 (Cont.) List of Functional Activity Codes

Screen Name/API Name	Functional Activity Code	Action	Description
Arrangement Decisioning	OBCM_FA_ARRDEC_VIEW_DELETE_SERVICE	Delete	Delete the Arrangement Decisioning record
Arrangement Decisioning	OBCM_FA_ARRDEC_VIEW_COPY_SERVICE	Copy	Copy and create a new Arrangement Decisioning record
Arrangement Definition	OBCM_FA_ARRDEF_CREATE_SERVICE	Create	Create Arrangement Definition
Arrangement Definition	OBCM_FA_ARRDEF_VIEW_SERVICE	View	View Arrangement Definition
Arrangement Definition	OBCM_FA_ARRDEF_VIEW_AUTHORIZE_SERVICE	Authorize	Authorize the Arrangement Definition record
Arrangement Definition	OBCM_FA_ARRDEF_VIEW_UPDATE_SERVICE	Update	Unlock and edit the Arrangement Definition record
Arrangement Definition	OBCM_FA_ARRDEF_VIEW_CLOSE_SERVICE	Close	Close the Arrangement Definition record
Arrangement Definition	OBCM_FA_ARRDEF_VIEW_REOPEN_SERVICE	Reopen	Reopen a closed Arrangement Definition record
Arrangement Definition	OBCM_FA_ARRDEF_VIEW_DELETE_SERVICE	Delete	Delete the Arrangement Definition record
Arrangement Definition	OBCM_FA_ARRDEF_VIEW_COPY_SERVICE	Copy	Copy and create a new Arrangement Definition record
Cash Denomination	OBCM_FA_CASHDENOM_CREATE_SERVICE	Create	Create Cash Denomination
Cash Denomination	OBCM_FA_CASHDENOM_VIEW_SERVICE	View	View Cash Denomination
Cash Denomination	OBCM_FA_CASHDENOM_VIEW_AUTHORIZE_SERVICE	Authorize	Authorize the Cash Denomination record
Cash Denomination	OBCM_FA_CASHDENOM_VIEW_UPDATE_SERVICE	Update	Unlock and edit the Cash Denomination record
Cash Denomination	OBCM_FA_CASHDENOM_VIEW_CLOSE_SERVICE	Close	Close the Cash Denomination record
Cash Denomination	OBCM_FA_CASHDENOM_VIEW_REOPEN_SERVICE	Reopen	Reopen a closed Cash Denomination record
Cash Denomination	OBCM_FA_CASHDENOM_VIEW_DELETE_SERVICE	Delete	Delete the Cash Denomination record
Cash Denomination	OBCM_FA_CASHDENOM_VIEW_COPY_SERVICE	Copy	Copy and create a new Cash Denomination record
Charge Code	OBCM_FA_CHGMASTER_CREATE_SERVICE	Create	Create Charge Code
Charge Code	OBCM_FA_CHGMASTER_VIEW_SERVICE	View	View Charge Code
Charge Code	OBCM_FA_CHGMASTER_VIEW_AUTHORIZE_SERVICE	Authorize	Authorize the Charge Code record
Charge Code	OBCM_FA_CHGMASTER_VIEW_UPDATE_SERVICE	Unlock	Unlock and edit the Charge Code record
Charge Code	OBCM_FA_CHGMASTER_VIEW_CLOSE_SERVICE	Close	Close the Charge Code record

Table A-1 (Cont.) List of Functional Activity Codes

Screen Name/API Name	Functional Activity Code	Action	Description
Charge Code	OBCM_FA_CHGMASTER_VI EW_REOPEN_SERVICE	Reopen	Reopen a closed Charge Code record
Charge Code	OBCM_FA_CHGMASTER_VI EW_DELETE_SERVICE	Delete	Delete the Charge Code record
Charge Code	OBCM_FA_CHGMASTER_VI EW_COPY_SERVICE	Copy	Copy and create a new Charge Code record
Charge Decisioning	OBCM_FA_CHGDEC_CREA TE_SERVICE	Create	Create Charge Decisioning
Charge Decisioning	OBCM_FA_CHGDEC_VIEW_ SERVICE	View	View Charge Decisioning
Charge Decisioning	OBCM_FA_CHGDEC_VIEW_ AUTHORIZE_SERVICE	Authorize	Authorize the Charge Decisioning record
Charge Decisioning	OBCM_FA_CHGDEC_VIEW_ AMEND_SERVICE	Unlock	Unlock and edit the Charge Decisioning record
Charge Decisioning	OBCM_FA_CHGDEC_VIEW_ CLOSE_SERVICE	Close	Close the Charge Decisioning record
Charge Decisioning	OBCM_FA_CHGDEC_VIEW_ REOPEN_SERVICE	Reopen	Reopen a closed Charge Decisioning record
Charge Decisioning	OBCM_FA_CHGDEC_VIEW_ DELETE_SERVICE	Delete	Delete the Charge Decisioning record
Charge Decisioning	OBCM_FA_CHGDEC_VIEW_ COPY_SERVICE	Copy	Copy and create a new Charge Decisioning record
Charge Preferential Pricing	OBCM_FA_CHGPREFPRC_ CREATE_SERVICE	Create	Create Charge Preferential Pricing
Charge Preferential Pricing	OBCM_FA_CHGPREFPRC_ VIEW_SERVICE	View	View Charge Preferential Pricing
Charge Preferential Pricing	OBCM_FA_CHGPREFPRC_ VIEW_AUTHORIZE_SERVIC E	Authorize	Authorize the Charge Preferential Pricing record
Charge Preferential Pricing	OBCM_FA_CHGPREFPRC_ VIEW_UPDATE_SERVICE	Unlock	Unlock and edit the Charge Preferential Pricing record
Charge Preferential Pricing	OBCM_FA_CHGPREFPRC_ VIEW_CLOSE_SERVICE	Close	Close the Charge Preferential Pricing record
Charge Preferential Pricing	OBCM_FA_CHGPREFPRC_ VIEW_REOPEN_SERVICE	Reopen	Reopen a closed Charge Preferential Pricing record
Charge Preferential Pricing	OBCM_FA_CHGPREFPRC_ VIEW_DELETE_SERVICE	Delete	Delete the Charge Preferential Pricing record
Charge Preferential Pricing	OBCM_FA_CHGPREFPRC_ VIEW_COPY_SERVICE	Copy	Copy and create a new Charge Preferential Pricing record
Charge Rule Maintenance	OBCM_FA_CHARGES_RUL E_CREATE_SERVICE	Create	Create Charge Rule Maintenance
Charge Rule Maintenance	OBCM_FA_CHARGES_RUL E_VIEW_SERVICE	View	View Charge Rule Maintenance
Charge Rule Maintenance	OBCM_FA_CHARGES_RUL E_VIEW_CLOSE_SERVICE	Close	Authorize the Charge Rule Maintenance record

Table A-1 (Cont.) List of Functional Activity Codes

Screen Name/API Name	Functional Activity Code	Action	Description
Charge Rule Maintenance	OBCM_FA_CHARGES_RULE_VIEW_REOPEN_SERVICE	Reopen	Unlock and edit the Charge Rule Maintenance record
Charge Rule Maintenance	OBCM_FA_CHARGES_RULE_VIEW_DELETE_SERVICE	Delete	Close the Charge Rule Maintenance record
Charge Rule Maintenance	OBCM_FA_CHARGES_RULE_VIEW_AUTHORIZE_SERVICE	Authorize	Reopen a closed Charge Rule Maintenance record
Charge Rule Maintenance	OBCM_FA_CHARGES_RULE_VIEW_MODIFY_SERVICE	Unlock	Delete the Charge Rule Maintenance record
Charge Rule Maintenance	OBCM_FA_CHARGES_RULE_VIEW_COPY_SERVICE	Copy	Copy and create a new Charge Rule Maintenance record
Corporate Enrichment	OBCM_FA_CORPENRICH_CREATE_SERVICE	Create	Create Corporate Enrichment
Corporate Enrichment	OBCM_FA_CORPENRICH_VIEW_SERVICE	View	View Corporate Enrichment
Corporate Enrichment	OBCM_FA_CORPENRICH_VIEW_AUTHORIZE_SERVICE	Authorize	Authorize the Corporate Enrichment record
Corporate Enrichment	OBCM_FA_CORPENRICH_VIEW_UPDATE_SERVICE	Update	Unlock and edit the Corporate Enrichment record
Corporate Enrichment	OBCM_FA_CORPENRICH_VIEW_CLOSE_SERVICE	Close	Close the Corporate Enrichment record
Corporate Enrichment	OBCM_FA_CORPENRICH_VIEW_REOPEN_SERVICE	Reopen	Reopen a closed Corporate Enrichment record
Corporate Enrichment	OBCM_FA_CORPENRICH_VIEW_DELETE_SERVICE	Delete	Delete the Corporate Enrichment record
Corporate Enrichment	OBCM_FA_CORPENRICH_VIEW_COPY_SERVICE	Copy	Copy and create a new Corporate Enrichment record
Courier Setup	OBCM_FA_COURIER_SETUP_CREATE_SERVICE	Create	Create Courier Setup
Courier Setup	OBCM_FA_COURIER_SETUP_VIEW_SERVICE	View	View Courier Setup
Courier Setup	OBCM_FA_COURIER_SETUP_VIEW_AUTHORIZE_SERVICE	Authorize	Authorize the Courier Setup record
Courier Setup	OBCM_FA_COURIER_SETUP_VIEW_UPDATE_SERVICE	Update	Unlock and edit the Courier Setup record
Courier Setup	OBCM_FA_COURIER_SETUP_VIEW_CLOSE_SERVICE	Close	Close the Courier Setup record
Courier Setup	OBCM_FA_COURIER_SETUP_VIEW_REOPEN_SERVICE	Reopen	Reopen a closed Courier Setup record
Courier Setup	OBCM_FA_COURIER_SETUP_VIEW_DELETE_SERVICE	Delete	Delete the Courier Setup record
Courier Setup	OBCM_FA_COURIER_SETUP_VIEW_COPY_SERVICE	Copy	Copy and create a new Courier Setup record
Location	OBCM_FA_LOCATION_CREATE_SERVICE	Create	Create Location

Table A-1 (Cont.) List of Functional Activity Codes

Screen Name/API Name	Functional Activity Code	Action	Description
Location	OBCM_FA_LOCATION_VIE W_SERVICE	View	View Location
Location	OBCM_FA_LOCATION_VIE W_AUTHORIZE_SERVICE	Authorize	Authorize the Location record
Location	OBCM_FA_LOCATION_VIE W_UPDATE_SERVICE	Update	Unlock and edit the Location record
Location	OBCM_FA_LOCATION_VIE W_CLOSE_SERVICE	Close	Close the Location record
Location	OBCM_FA_LOCATION_VIE W_REOPEN_SERVICE	Reopen	Reopen a closed Location record
Location	OBCM_FA_LOCATION_VIE W_DELETE_SERVICE	Delete	Delete the Location record
Location	OBCM_FA_LOCATION_VIE W_COPY_SERVICE	Copy	Copy and create a new Location record
Location Cluster Maintenance	OBCM_FA_LOCCLUSTER_C REATE_SERVICE	Create	Create Location Cluster Maintenance
Location Cluster Maintenance	OBCM_FA_LOCCLUSTER_V IEW_SERVICE	View	View Location Cluster Maintenance
Location Cluster Maintenance	OBCM_FA_LOCCLUSTER_V IEW_AUTHORIZE_SERVICE	Authorize	Authorize the Location Cluster Maintenance record
Location Cluster Maintenance	OBCM_FA_LOCCLUSTER_V IEW_UPDATE_SERVICE	Update	Unlock and edit the Location Cluster Maintenance record
Location Cluster Maintenance	OBCM_FA_LOCCLUSTER_V IEW_CLOSE_SERVICE	Close	Close the Location Cluster Maintenance record
Location Cluster Maintenance	OBCM_FA_LOCCLUSTER_V IEW_REOPEN_SERVICE	Reopen	Reopen a closed Location Cluster Maintenance record
Location Cluster Maintenance	OBCM_FA_LOCCLUSTER_V IEW_DELETE_SERVICE	Delete	Delete the Location Cluster Maintenance record
Location Cluster Maintenance	OBCM_FA_LOCCLUSTER_V IEW_COPY_SERVICE	Copy	Copy and create a new Location Cluster Maintenance record
