This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Contents

1	Release Notes	
1.1	Release Highlights	1-1
1.1.1	ENDPOINT Overrides	1-1
1.1.2	Dynamic Data Configuration (DDC)	1-1
1.1.3	Task Screen Customizations	1-2
2	Components of the Software	
2.1	Documents Accompanying The Software	2-1
2.2	Software Components	2-1
3	Annexure – A: Environment Details	
3.1	Technology Stack	3-1
4	Annexure – B: Third Party Software Details	

Preface

- [Purpose](#)
- [Audience](#)
- [Abbreviations](#)
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Related Resources](#)
- [Conventions](#)

Background

Oracle Banking Extensibility Workbench (OBX) is a toolkit, which allows banks and partners/customers to create extensions for Oracle's latest product based on Oracle Banking Microservices Architecture.

Oracle Banking Extensibility Workbench is complete solution for extension generation as it not only generates the services and UI artifacts, but it also generates the relevant SQL scripts which helps easy integration of these artifacts with main application.

Purpose

The purpose of this Release Note is to propagate the enhancements of Oracle Banking Extensibility Workbench 14.7.5.0.0.

Audience

This guide is intended for the users of Oracle Banking Extensibility Workbench.

Abbreviations

Table Abbreviations

Abbreviations	Description
UI	User Interface
OBX	Oracle Banking Extensibility Workbench
OBMA	Oracle Banking Microservices Architecture
XDL	OBX Domain Language
SMS	Security Management System
CMC	Common Core
RBAC	Role Based Access Control

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Related Resources

For more information, see these related Oracle resources:

- [Oracle Banking Extensibility Workbench Installation Guide](#)
- [Oracle Banking Extensibility Workbench User Manual](#)

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
<code>monospace</code>	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1

Release Notes

This topic provides the information about the release notes added to the product for the current release.

This topic contains the following sub-topics:

- [Release Highlights](#)
This topic provides the systematic instructions to perform the basic operations on the selected records.

1.1 Release Highlights

This topic provides the systematic instructions to perform the basic operations on the selected records.

Oracle Banking Extensibility Workbench 14.7.5.0.0 offers a comprehensive standalone solution for creating extension for Oracle Banking Microservice Architecture based products.

Following are the major features added to the OBX product in the 14.7.5.0.0 release:

- [ENDPOINT Overrides](#)
- [Dynamic Data Configuration \(DDC\)](#)
- [Task Screen Customizations](#)
- [ENDPOINT Overrides](#)
This topic provides the systematic instructions to perform the basic operations on the selected records.
- [Dynamic Data Configuration \(DDC\)](#)
This topic provides the systematic instructions to perform the basic operations on the selected records.
- [Task Screen Customizations](#)
This topic provides the systematic instructions to Task Screen Customizations.

1.1.1 ENDPOINT Overrides

This topic provides the systematic instructions to perform the basic operations on the selected records.

To enhance the endpoint override extensibility, we've added a new column, CCA_NAME, to the PRODUCT_SERVICE_EXT_LEDGER table.

This column provides an extensibility for overriding the existing endpoint behavior for specific UI components.

1.1.2 Dynamic Data Configuration (DDC)

This topic provides the systematic instructions to perform the basic operations on the selected records.

DDC is an infrastructure component comprising a user interface and a service. It empowers developers to define prepared statements for dynamic data retrieval. The DDC service's response is utilized by UI components or invoking services to render List of Values (LOV) results.

1.1.3 Task Screen Customizations

This topic provides the systematic instructions to Task Screen Customizations.

User can customize the task screen using a CUSTOM_CONFIG table, you can show or hide existing columns, and even add additional filters to the task search screen for specific fields.

2

Components of the Software

This topic provides the systematic instructions to perform the basic operations on the selected records.

This topic consists of following sub-topics:

- [Documents Accompanying The Software](#)
This topic provides the systematic instructions to Documents accompanying the software.
- [Software Components](#)
This topic provides the systematic instructions to Software Components.

2.1 Documents Accompanying The Software

This topic provides the systematic instructions to Documents accompanying the software.

The various documents accompanying the software are as follows:

- Release Notes
- Installer Kit

2.2 Software Components

This topic provides the systematic instructions to Software Components.

Software Components of OBX 14.7.5.0.0 that form part of this release are as follows:

- OBX.zip

Annexure – A: Environment Details

This topic describes about Tech Stack details of Oracle Banking Liquidity Management.

- [Technology Stack](#)
This topic provides the systematic instructions to perform the basic operations on the selected records.

3.1 Technology Stack

This topic provides the systematic instructions to perform the basic operations on the selected records.

The technology stack for Oracle Banking Extensibility Workbench 14.7.5.0.0 is as listed below.

Deployment Option: Single Instance Standalone

Table 3-1 Technology Stack

Component	Operating System	Software	Version
Oracle Banking Extensibility Workbench		Java HotSpot™ JDK (with WebLogic Application Server)	JDK 11
		Google Chrome	Google Chrome Release (88+)
	Windows 11		64-bit: Pro, Enterprise, or Education (Build 15063 or later)

Note:

- Browser support is no longer based on Operating Systems. But strictly tied to the browser themselves, no matter on which Operating Systems they are installed. Current release is certified on client workstations with Windows 10 and Mac OS.
- For detailed information on Browser Support, please refer to the Oracle Software Web Browser Support Policy at <https://www.oracle.com/middleware/technologies/browser-policy.html>
- Oracle Applications are developed and tested on Oracle Linux, which is optimized for performance, stability and security.

Annexure – B: Third Party Software Details

This topic provides the systematic instructions to perform the basic operations on the selected records.

For information on the third-party software, refer Oracle Banking Extensibility Workbench 14.7.5.0.0 License Guide in the OHC Documentation Library.
