This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Preface

Release Notes for Oracle Business Process Management describes new features for Release 14c (14.1.2.0.0) of Oracle Business Process Management and its components such as Oracle BPM Studio, Oracle BPM Composer, Oracle BPM Workspace, and Oracle Business Rules. It also includes information about known issues and workarounds.

For release notes for earlier releases not covered here, refer to the Oracle Fusion Middleware library on the Oracle Help Center for the release you need.

Audience

This document is intended for administrators and developers who work with Oracle Business Process Management components.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Related Documents

Refer to the [Oracle Fusion Middleware library on the Oracle Help Center](#) for additional information.

- For Oracle Business Process Management information, see Oracle Business Process Management.
- For Oracle SOA Suite information, see Oracle SOA Suite.
- For versions of platforms and related software for which Oracle products are certified and supported, review the [Certification Matrix on OTN](#).

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.

Convention	Meaning
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1

New Features

New features for Release 14c (14.1.2.0.0) of Oracle Business Process Management are:

- **Design Time at Runtime:** This feature enables you to customize the human tasks and business rules in Oracle BPM worklists at runtime. See Design Time at Runtime in Oracle Business Process Management in *Developing SOA Applications with Oracle SOA Suite*.

2

Known Issues and Workarounds

Known issues and workarounds for Release 14c (14.1.2.0.0) of Oracle Business Process Management are:

- [Oracle BPM Worklist Login Fails](#)
- [URL Sanity Fails for Oracle BPM Composer and Oracle BPM Workspace Installation with Secure Mode](#)
- [Oracle BPM Composer Fails to Create Space Due to Incorrect Permission to a Folder](#)

Oracle BPM Worklist Login Fails

Issue

Bug Number: 36734222

Impacted Releases: 14.1.2.0.0

Impacted Platforms: All

Description of the issue and when it might occur.

When you log in to Oracle BPM Worklist application (<https://hostname:port/integration/worklistapp>) in high availability environment with JDK21, the following exception is displayed in the browser.

```
UIViewRoot is null. Fatal exception during PhaseId: RESTORE_VIEW 1
```

This is an intermittent bug.

Workaround

None.

URL Sanity Fails for Oracle BPM Composer and Oracle BPM Workspace Installation with Secure Mode

Issue

Bug Number: 36154665

Impacted Releases: 14.1.2.0.0

Impacted Platforms: All

Workaround

Start the managed server with the following additional parameters for Oracle SOA Suite.

```
./startManagedWebLogic.sh soa_server1 https://100.111.149.14:9002  
-Djavax.net.ssl.trustStore=/scratch/kamandal/14120_33_L/soa/mwhome/  
user_projects/domains/soa_domain/security/DemoTrust.p12  
-Djavax.net.ssl.trustStorePassword=DemoTrustKeyStorePassPhrase
```

Oracle BPM Composer Fails to Create Space Due to Incorrect Permission to a Folder

Issue

Bug Number: 38137423

Impacted Releases: 14.1.2.0.0

Impacted Platforms: Solaris

Description of the issue and when it might occur.

The BPM Composer fails to create space. The following error is thrown:

```
BPM-0:An I/O error occurs trying to execute the operation
```

This issue is found only on SOLARIS platform.

Workaround

Insert the following in the JAVA_OPTIONS in `commENV.sh` under `oracle_common/common/bin` folder:

```
JAVA_OPTIONS="${JAVA_OPTIONS} ${VERIFY_NONE} -Dsvnkit.useJNA=false"
```

Restart the Admin Server and Management Server. BPM Composer creates the space without any exception.
